EDUCATION

Manipal University Jaipur

BTech in Computer and Communication Engineering; CGPA: 7.44

Jaipur, India

July 2020 - June 2024

EXPERIENCE

- Chambal Fertilisers and Chemicals Limited, Internship** 1st April – 31st July 2024, Kota
 - Developed and customized 4 enterprise applications using **Python** and **SAP ABAP** to automate key business logistics and reporting tasks within the SAP ERP environment.
 - Engineered **custom programs** and **interfaces** that streamlined data processing, reducing manual intervention and improving processing time by 20%.
 - Leveraged **SQL** for database management and **SAP development** tools to optimize core business workflows, achieving a 15% increase in operational efficiency while ensuring **data integrity**.
- Team Computers, Project Internship** Remote
 - Weather Based Alert Automation Project** 15th June. 2023 – 14th August 2023
 - Researched and evaluated **4 weather APIs** analyzing data accuracy, coverage and integration requirements.
 - Developed a **Node.js** and **Express.js** backend with **3 REST API** endpoints to fetch, process and distribute data from external weather APIs.
 - Created a responsive frontend dashboard with **React.js**, **JavaScript**, **CSS** and **HTML** allowing users to view and manage weather alerts.
 - Utilized **Python** scripts for initial data extraction and prototyping of the alert trigger mechanism.

SKILLS

- Languages, Frameworks & Libraries:** Python, C++, JavaScript, SAP ABAP, HTML5, CSS3, SCSS, React.js, Node.js, SAP ERP, Express.js, Next.js, Tailwind CSS, REST APIs
- Tools & Platforms:** Git, GitHub, Power BI, AWS (S3), SQL, Postman, Advanced Excel

PROJECTS

- Sortify – Sorting Visualizer** [🔗](#) | **Demo** 2024
 - Build a highly interactive web application to visualize six common sorting algorithms (e.g. Merge Sort, Quick Sort) using **React.js**, **JavaScript**, **SCSS** and **Framer Motion**.
 - Implemented a suite of user controls, including adjustable animation speed and dynamic array sizing to create a responsive and intuitive educational experience on all devices.
 - Implemented complex **algorithms** using **recursion** and **divide-and-conquer** principles and deployed the final application to **Netlify** for scalable & global accessibility.

CERTIFICATIONS

- Deep Learning Specialization – Certificate Link
- AWS Academy Cloud Foundation – Certificate Link
- PCAP: Programming Essentials in Python – Certificate Link
- Cisco CCNA v7 – Certificate Link
- Cisco Networking Essentials – Certificate Link

ACHIEVEMENTS

- 3* Codechef:** Max (1663) Solved over 300+ Problems.
- 1700 Rating LeetCode:** Max (1700) Solved 240+ Problems.
- 1399 Global Rank GeeksForGeeks:** Max (1873) Solved 500+ Problems.
- 43 Global Rank in **Starters 134 Division 4 (Rated)** on Codechef.
- Selected as a delegate for **HPAIR 2022 Conference**, chosen as one of 700 delegates from a competitive pool of over 25,000 global applicants.
- Attended GitHub TechTab 2022, connecting with developers on open-source technology and collaborations.
- Earned **Salesforce Developer Superset certification** through Virtual Internship Training in two months. I gained expertise in CRM operations, Apex programming and robust application testing methodologies.

VOLUNTEERING ACTIVITIES

- Hack2Skill Workshop Series Volunteer:** Educated 1000+ students on tech recruitment processes for Google, Amazon, Apple, Jio and Meta; led social media promotion resulting in 30% signup increase.
- MUJ Industry Leadership Summit 3.0, Liaison Officer:** Coordinated travel and accommodation for HR leaders, facilitated networking sessions and managed event logistics including venue and registration.
