Career Objective

Motivated MBA student with a background in Engineering and hands-on experience in data analytics tools like SQL, Excel, Tableau, and Power BI. Currently working on a live field project in the rural retail sector to understand ICT impact on grassroots business operations. Seeking to leverage analytical, research, and business insights for a data-driven role in a growth-oriented organization.

Education

MBA (Pursuing)

Savitribai Phule Pune University (SPPU)

Expected Graduation: 2026

Specialization: [e.g., Business Analytics / Marketing / Operations]

Bachelor of Engineering (BE)

Anantrao Pawar College of Engineering & Research, Pune

08/2019 - 05/2023

CGPA: 8.65 (First Class with Distinction)

Field Project

Title: Use of ICT in the Rural Retail Sector

Location: Pandharpur, Maharashtra

Duration: [Start - End Month, Year]

- Collected and analyzed data from 100 rural retail shops to study ICT usage patterns.
- Assessed digital infrastructure, mobile usage, payment systems, and retail awareness.
- Applied Excel and basic statistics to identify gaps in digital adoption.
- Suggested practical ICT solutions to enhance rural retail efficiency and reach.
- Created structured survey forms and assisted in preparing the final project report.

Internship Experience

Data Analyst Intern

ETLHIVES | Pune | 12/2023 - 06/2024

- Cleaned and analyzed large datasets to uncover performance trends.
- Developed interactive Tableau dashboards for KPI monitoring.
- Wrote SQL queries for custom reporting from multiple databases.
- Collaborated with teams to provide actionable business insights.
