Professional Summary

Detail-Oriented Economics graduate with expertise in data analyst, statistical modelling, and research methodologies. Proficient in tools like Excel, SQL and Python. Seeking a job to apply analytical skills to real-world projects.

SKILLS

Languages: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Tools: Advanced Excel, Microsoft Power BI, Jupyter Notebook, Tableau

Technical skills: Data Visualization, Data Manipulation, Dashboard Creation

Soft skills: Critical thinking, Attention to detail, Time management, Problem solving

EDUCATION

- *Relevant Courses: Data Analytics, Research Methodology, Econometrics*
 - *Bachelor of Arts- (2022 – 2025)*
Utkal University – CGPA: **7.5**
 - *Higher Secondary Education- (2020 – 2022)*
Chitalo Higher Secondary School – Percentage: **75**
 - *Secondary Education- (2020)*
MBS Public School – Percentage: **72**
-

PROJECTS

1. **Demographic Data Analyzer:**
Utilized Python and Pandas to analyse U.S. Census demographic data, uncovering insights on education, income, and employment trends.
Performed data cleaning, filtering, and handling of missing values to ensure data accuracy.
Generated visualizations using Matplotlib and Seaborn to present findings.
 2. **HR Analytics Dashboard:**
Developed an interactive HR analytics dashboard in Power BI to visualize key metrics such as attrition rates, job satisfaction, and employee demographics.
Utilized DAX functions and data modelling to create dynamic filters and drill-down insights for better workforce decision-making.
Identified trends in employee turnover and performance, enabling data-driven recommendations for HR strategy improvements.
 3. **Pizza Sales Analysis:** -
Developed a comprehensive Pizza Sales Analysis project using SQL and Excel to extract actionable business insights.
Analysed sales trends, identified top and bottom performing pizzas, and calculated key metrics such as AOV and sales distribution.
Visualized sales patterns by size, category, and time to support data-driven decision-making.
-

Certification:

Data Analysis with Python- Freecodecamp

Google Data Analytics (In Progress)- Coursera
