Objective

Aspiring **Financial Risk Analyst & Quantitative Finance Professional** with expertise in **data science, machine learning, and financial modeling**. Currently pursuing a **BS in Data Science & Applications** from **IIT Madras** and preparing for **FRM Part 1 (Nov 2025) & CFA Level 1 (Feb 2026)**. Passionate about leveraging **quantitative finance, statistical models, and risk management techniques** for **investment analysis, portfolio optimization, and financial forecasting**.

Education

Indian Institute of Technology, Madras (2024 – Present)

BS in Data Science & Applications

Courses: Financial Mathematics, Probability & Statistics, Data Analytics, Machine Learning

Chhatrapati Shivaji College of Science (HSC, 2022) – 71.50%

Professional Certifications (In Progress)

Financial Risk Manager (FRM) – Part 1 (Nov 2025) – GARP

Chartered Financial Analyst (CFA) – Level 1 (Feb 2026) – CFA Institute

Experience

Cloud Counselage IT & Services – Data Analytics Intern (2024)

- Created **interactive financial dashboards** for risk analysis using JavaScript & Python. - Conducted **data-driven security audits** for cloud-hosted financial services.

Projects

Data Science Application in Finance

- Developed a **predictive model for stock price forecasting** using **time series analysis**. - Applied **machine learning algorithms** to identify **trading opportunities** and market trends. - Analyzed **financial data sets** using **Python, pandas, NumPy, and scikit-learn**.

Quantitative Trading & Risk Management

- Designed **algorithmic trading strategies** using **Python and pandas**. - Developed **custom trading indicators** (RSI, MACD, Bollinger Bands) for financial analysis.

Stock Market Prediction Using Machine Learning

- Built an **ML model for stock trend prediction** using **historical price data**.

Credit Risk Analysis Using Machine Learning

- Applied **logistic regression & decision trees** to predict **loan defaults**.

Skills

Finance & Investment: Financial Risk Analysis, Portfolio Management, Investment Strategies, Market & Credit Risk, Derivatives, Fixed Income

Data Science & Machine Learning: Financial Modeling, Time Series Analysis, Monte Carlo Simulation, Predictive Analytics, Quantitative Finance

Programming & Technical: Python, SQL, Java, Java DSA, HTML, CSS, Operating Systems, Linux

Tools & Platforms: Excel (Financial Modeling), Power BI, Tableau, AWS, Docker

Languages

English, Hindi, Marathi, German (A1)
