**Data Analysis & Visualization:** SQL, Excel, Power BI, Python, Data Cleaning, Data Wrangling, Trend Analysis

**Methodologies:** Agile (Scrum), Waterfall, SDLC, Project Management Tools

**Soft Skills:** Analytical Thinking, Communication, Problem-Solving, Time Management, Attention to Details

## WORK EXPERIENCE

**Maxgen Technologies Pvt. Ltd.**  
**Business Analyst Intern**

**Nov 2024 – Apr 2025**  
Pune, India

- Conducted stakeholder interviews across marketing and product teams to gather functional and non-functional requirements, resulting in detailed BRDs and FRDs for 3+ projects.
- Developed SQL-driven reports and dashboards that boost campaign performance tracking and decision-making, reducing lead response time by 30%.
- Translated business needs into user stories and acceptance criteria using Jira for Agile sprints.
- Developed a customer segmentation model using Excel and Python, identifying 3 key customer cohorts and enabling targeted marketing strategies.
- Presented monthly insight reports to leadership, leading to a 15% improvement in customer engagement KPIs.
- Collaborated with developers and QA to ensure requirement alignment during UAT and sprint reviews.

## PROJECTS

### Phone Bill Payment Application Development

**Mar 2025**

- Collaborated with cross-functional Agile team on a Phone Bill Payment App project; gathered and documented 50+ business and technical requirements to streamline telecom billing processes.
- Created and prioritized 40+ user stories with detailed acceptance criteria, enabling smooth sprint execution and delivery of key MVP features like real-time payments and transaction history.
- Coordinated User Acceptance Testing (UAT) with stakeholders, achieving a 90%+ approval rate and ensuring alignment with user expectations and business goals.

### Customer Churn Prediction and Retention Analysis | Python & Excel

**Jan 2025**

- Analyzed 15,000+ customer behavior records to identify churn drivers using logistic regression.
- Recommended retention strategies for high-risk customers, which hypothetically projected a 10% increase in CLTV.
- Delivered actionable insights in a simulated consulting setting using stakeholder-friendly visualizations.

### Revenue Dashboard for Hospitality Insights | Power BI

**Dec 2024**

- Designed an interactive Power BI dashboard that improved revenue tracking accuracy by 25% and reduced forecasting time by 30%.
