WORK EXPERIENCE:

KPMG , Research & Analyst Intern

May 2024 - July 2024

- Conducted comprehensive market research and competitive analysis, producing strategic insights that informed high-impact business decisions for project leadership teams.
- Developed visually compelling reports and dashboards using Power BI and Excel, enhancing stakeholder engagement and data-driven decision-making across departments.
- Coordinated cross-functional teams by leveraging MS Project for detailed project planning, tracking deliverables, and managing collaborative documentation within SharePoint.
- Facilitated structured project execution by curating knowledge repositories, synthesizing data into executive summaries, and delivering actionable recommendations for key decision-making processes.

Fika Studio , Digital Media Project & HR Coordinator

2022 - 2023 / 12 Months

- Facilitated project planning and resource scheduling through Excel and Smartsheet, ensuring seamless task alignment and deadline adherence across departments.
- Prepared structured meeting agendas, documented actionable minutes, and monitored follow-ups to enhance accountability and maintain project momentum organization-wide.
- Maintained comprehensive project documentation, supported internal reporting processes, and assisted with compliance by creating and updating quality assurance checklists regularly.
- Collaborated with cross-functional teams to streamline execution of HR and marketing initiatives, aligning deliverables with organizational goals and stakeholder expectations.

Vignaharta Developers , Project Coordinator & Innovative Designer

2018 - 2020 / 22 Months

- Led end-to-end operations for real estate and interior projects, ensuring timely team deliverables through effective scheduling and cross-functional coordination.
- Maintained detailed documentation including project plans, reports, and quality checklists to support seamless execution and compliance with delivery standards.
- Collaborated with clients, contractors, and vendors to address project dependencies and provided leadership with weekly updates on progress, risks, and solutions.

CERTIFICATIONS :

- Proficient in data analytics, business analysis, and process optimization using spreadsheets and Microsoft Forms.
- Experienced in graphic design, animation, and responsive web design with HTML and CSS.
