ABOUT

I'm Gaayatri, a recent BBA graduate specializing in Business Analytics with a minor in AI and Data Science, focused on solving real-world problems through data-driven insights and strategic thinking.

EDUCATION

BBA (Honors) – RV University, Bangalore

2022 – 2025

XII (CBSE) – Vivekananda Kendra Vidyalaya, Port Blair

2022

INTERNSHIPS

Financial Planning and Advising Intern (*FreshToHome*)

Jun – Aug 2024

- Reconciled BB Magento and SAP data to ensure accurate inventory and sales records.
- Analyzed weekly sales performance to identify trends and growth opportunities.
- Built interactive dashboards for quarterly sales reports across Indian branches.

PROJECTS

KVP Extraction from KYC Documents (Aadhar Card) (*Real-life Use Case*)

- Built an Intelligent Document Processor (IDP) to automate KYC data verification using OCR and key-value pair extraction, reducing manual effort.
- Used Tesseract OCR, YOLOv5 for document classification, and REGEX/Google Gemini for accurate key-value pair (KVP) extraction from Aadhar card.
- Achieved 95% accuracy on unseen data, ensuring scalable, real-time verification across diverse document types.

Quick Commerce Customer Satisfaction Analysis (*Capstone Project*)

- Developed a regression model to identify key factors influencing customer satisfaction with Quick Commerce platforms.
- Applied clustering techniques (K-means) to segment customer behavior based on demographic data.
- Used ANOVA to assess the impact of gender, age, and education on platform preference.

AI-Driven Retail Demand Forecasting Platform (*Interdisciplinary Academic Project*)

- Built a predictive analytics solution to forecast retail product demand using machine learning algorithms.
- Applied time series models and regression techniques to optimize inventory and minimize stock-outs.
- Collaborated on dashboard design to visualize trends and support real-time supply chain decisions.

Logistics Chatbot (*Gen-AI Project*)

- Designed and developed an AI-powered chatbot for a logistics use case using the Gemini API.
- Trained the bot to respond to queries related to shipment tracking, order status, and delivery timelines.
- Focused on improving user interaction flow and minimizing response latency for seamless logistics support.

EXTRACURRICULAR ACTIVITIES

Event Volunteer - AVANI Kalotsava (*RV University*)

Founding Vice President – NSS (*RV University*)

Event Volunteer – SPIC MACAY (*RV University*)

SKILLS

Soft Skills: Fast learner, Team player, Leadership, Communication, Adaptability

Technical Skills: Tableau, Python, ML, MS Excel, SQL, UiPath
