Education

D. Y. Patil International University

Bachelor of Technology in Computer Science (CGPA: 8.82)

2021 – 2025

Pune, India

Kendriya Vidyalaya Ambernath (CBSE)

Class 12th (Percentage: 80.8)

2020 – 2021

Thane, India

Experience

EliteBridge India

May 2023 – July 2023

Software Development Engineer Intern

Pune, India

- Contributed to the development of an **Advanced Inventory Management Software**.
- Led and executed the end-to-end design and implementation of a **Sales and Purchase Tracking System**, enhancing sales data accuracy by 35% and reducing processing time by 40%.
- Developed and launched a **Stock Alert System** that provided real-time notifications for critical inventory levels, boosting operational efficiency by 40% and reducing stockout incidents by 25%.
- Tech Stack:** C++, Qt, MySQL, Git, GitHub

CodeDecode

August 2022 – June 2023

Mentor (Competitive Programming Lead)

Pune, India

- Conducted weekly lectures on **Data Structures and Algorithms** to enhance student understanding.
- Assigned engaging projects and led **interactive doubt resolution sessions**.
- Monitored student progress and provided personalized feedback to optimize learning outcomes.
- Tech Stack:** C++, Data Structures & Algorithms (DSA)

Projects

LinkFolio | MongoDB, Express, React, Node.js, Next.js

[GitHub Link](#)

- Engineered a modern, Linktree-inspired web application using the MERN stack and Next.js, enabling users to manage and share multiple links via a single, customizable page.
- Developed a feature-rich platform with functionalities such as user authentication, personalized dashboards, intuitive link management, social media integration, and sharing capabilities.
- Led end-to-end design and implementation of backend and frontend components, ensuring seamless integration, scalability, and an engaging user interface.
- Implemented a secure JWT-based authentication system and customizable link management features to prioritize security and enhance user interaction.

CommitChain - Version Control System | JavaScript, Git and GitHub

[GitHub Link](#)

- Developed a robust version control system designed to enhance development workflow.
- Implemented features for project creation and initialization, simplifying the start of new projects.
- Integrated comprehensive version control tools to manage and track changes effectively.
- Included task management and tracking capabilities to organize and prioritize development tasks.
- Facilitated collaboration and team communication through integrated tools for better teamwork.

Technical Skills

Programming Languages: C++, Python, Java, Go

Technologies/Frameworks: JavaScript, ReactJS, Tailwind CSS, Bootstrap, Express.js, Docker, Redis, API development

Databases/Utilities: MySQL, MongoDB, Git and GitHub, Postman

Coursework/Skills: Data Structures & Algorithms (DSA), Database Management System (DBMS), OOPS Concept, Operating Systems (OS), Computer Networking, Artificial Intelligence and Machine Learning

Achievements

- Topper in IoT and Cloud Computing** NPTEL courses conducted by IIT Kharagpur.
- Solved more than 800+ problems across platforms including **LEETCODE** and **CODECHEF**.
- Selected as a participant for the **State-level Smart India Hackathon (SIH)**.
- Competed in Google Hash Code, showcasing proficiency in problem-solving and algorithmic skills.
