PROFESSIONAL SUMMARY

Aspiring Business Analyst with a strong foundation in IT and a proven ability to translate business requirements into actionable solutions. Adept at using data-driven insights to drive digital transformation and improve operational efficiency. Certified in Full Stack Java Development and UX Design with practical experience in mock business process redesign, stakeholder communication, and functional documentation. Proficient in SQL, Python, Agile methodologies, JIRA, and visualization tools like Figma. Actively seeking challenging Business Analyst roles in dynamic organizations where I can contribute to growth strategies, digital adoption, and user-centered innovation. Open to opportunities in consulting, product management, or technology strategy roles.
