

Education

Jamia Hamdard University

Bachelor of Technology in Computer Science and Engineering

7.8 CGPA

Nov 2021 – June 2024

New Delhi, Delhi

Jamia Millia Islamia University

Diploma in Computer Science and Engineering

7.5 CGPA

Nov 2017 – July 2020

New Delhi, Delhi

Experience

Noon | Gurugram, Haryana

August 2024 – Present

Management Associate

Hybrid

- Overseeing end-to-end **order management processes** to ensure timely and accurate order fulfillment.
- Improved workflow by analyzing order management metrics and providing feedback for optimization. Used SQL to retrieve and modify data tables to detect fraud penalties efficiently.
- Handle and resolve Zoho tickets, addressing queries, order issues, system updates to maintain efficient workflow and Collaborate with **ecommerce teams** to enhance process efficiency.

Kartexa (KravinGO) | Noida, Uttar Pradesh

July 2023 – Aug 2023

React Developer Intern

Hybrid

- Developed a dynamic, React-based **Crypto Expense Panel** to provide cryptocurrency and market data, currency conversion, and expense tracking functionalities.
- Enabled users to select preferred cryptocurrencies for **tracking expenses, view exchange rates, and add expenses** with specific details like cryptocurrency name, amount, and date.

Projects

Video Tube | Technologies: JavaScript, React.js, Redux, TailwindCSS, Node.js, Express.js, MongoDB, JWT, Multer & Cloudinary

- Integrated Twitter API** to enable content sharing and engagement directly from the application interface.
- Implement **bcrypt & JWT** authentication, securing user sessions & reducing unauthorized access incidents by 40%.
- Utilized **MongoDB Aggregation pipeline** techniques to track & analyze user activity history.  [Source Code](#) [Live](#)

Breathe Easy : Real-Time weather cond. & air quality | Technologies: Java, Google Maps API, AirVisual API, JavaScript

- Developed a web application using Java for the backend and JavaScript for the frontend to display real-time weather and air quality information, integrating Google Maps API and AirVisual API.
- Designed and managed server-side logic in Java, including API integration and user authentication, enhancing overall application functionality and performance.  [Source Code](#)

Image Caption Generator | Technologies: Python, Machine Learning, Deep Learning, LSTM, CNN

- Trained a deep learning model on the **Flickr8k dataset**, achieving a BLEU score of 0.3 for accurate image captions.
- Utilized **VGG16 and LSTM**, enhancing feature representation by 10% and reducing errors by 20%.  [Source Code](#)

Skills

Languages:	Java (Proficient), C++, HTML/CSS, JavaScript, Familiar with Python
Development:	React.js, Node.js, Express.js, SQL, MongoDB, VS Code, Git/GitHub, Vercel
Libraries/Frameworks:	React.js, Redux, Redux-Toolkit, Mongoose, Axios, JWT, TailwindCSS, Bootstrap
Soft Skills:	Communication, Critical Thinking, Problem Solving, Time Management, Adaptability

Certifications

- Database
- Java
- Web Development
