EDUCATION

- **Ramniranjan Jhunjhunwala College, Mumbai** July 2023 - April 2025
MSc Statistics CGPA- 8.66
 - **D G Ruparel College, Mumbai** July 2020 - April 2023
BSc Statistics CGPA- 9.06
- Courses: Multivariate Analysis, Testing of Hypothesis, Probability Theory, Artificial Intelligence, Machine Learning, Time Series*

SKILLS SUMMARY

- **Languages:** Python, R
- **Frameworks:** Scikit-learn, NLTK, pandas, numpy,matplotlib, TensorFlow, Keras,Streamlit,Github
- **Tools:** MySQL, SQLite
- **Interests:** Gen AI, NLP, Deep learning
- **Soft Skills:** Leadership, Adaptability, Time Management

EXPERIENCE

- **Easchim Connect** Mumbai
Marketing Analyst May 2025
- **Hindustan Times** Remote
Research Analyst (Internship) Dec 2024 - Feb 2025
- **Codealpha Institute** Remote
Data Analyst (Internship) Mar 2024 - July 2024

PROJECTS

- **Insurance Premium Prediction -(Regression analysis,Supervised Learning):** Built a supervised regression model to predict insurance premiums using age, BMI, number of children and smoking habits. Conducted EDA, data preprocessing, and applied Decision Tree , Random Forest, SVR through GridSearch CV, achieving the best performance.
- **Credit Card Customer Segmentation and Targeted Marketing (Clustering,Dimensionality Reduction):** Developed an unsupervised K-means clustering model to segment credit card users based on spending limits, Card usage,and Banking interactions. Applied data normalization and PCA delivering actionable insights for targeted marketing to drive premium service adoption.
- **Time series Forecasting of ICICI Finance Stocks (Time Series Forecasting,Deep Learning):** Built and compared statistical and deep learning models to forecast stock price indicators in financial sector (VWAP). Applied AR, ARIMA, and ARIMAX models for baseline predictions using AIC and stepwise model selection. Implemented RNN and LSTM deep learning models for sequence forecasting, achieving enhanced accuracy by learning temporal dependencies. Preprocessed time-series data with normalization and reshaping.Evaluated models using RMSE and MAE metrics.
- **Instagram engagemnet and Website Analytics Report (Power BI, Excel):** Designed and developed dynamic Power BI dashboards to track Instagram engagement metrics (Reach, Interactions, Saves, Shares, Profile Visits) by post type and date.Integrated website analytics to monitor total clicks, unique visitors, and website traffic trends, improving visibility into user behavior and marketing impact.Delivered actionable visualizations that enabled marketing team to optimize content strategy and improve digital presence.

HONORS AND AWARDS

- Scored 100 in National Level CUET Statistics Entrance - July 2023
- Runer up in PPT presentation Competition in Inter College Competition- Feb 2023
- Achieved Maharashtra State Rank 1 in Geography Talent Exam - Jan 2018

EXTRA-CURRICULAR ACTIVITIES

- **Fundraiser at Renu Sharma Foundation** Mumbai
Raised Funds to help needy students in NGO impacted 150 students May 2024
- **Event Organizer at College Fest** Mumbai
Organized events, conducted workshops and delivered workshops reaching over 1000 students. Feb 2023

CERTIFICATIONS

- Financial Risk Analytics - Nov 2024
- Fundamentals of AI by Microsoft - June 2025
- Power BI for beginners by Simplilearn- Jan 2024
