EXPERIENCE

LUMBER

- **Quality Engineer** (JUNE 2024-JULY 2025)

Executed quality assurance processes across 10 application learning projects, ensuring functionality, performance, and reliability through rigorous manual and automation testing.

JASPER COLIN

- **RESEARCH ASSOCIATE** (SEPTEMBER 23 – March 24)

Responsible for validating, verifying, and maintaining the accuracy, consistency, and completeness of data across systems. Performed data audits, conducted root cause analysis, and implemented corrective actions to ensure data integrity and compliance with defined standards and business rules.

SUPERMINT EXPORT PRIVATE LIMITED

- **Quality Engineer Intern** (APRIL 22 – March 23)

As a QA Intern with 1 year of hands-on experience in manual testing, I focus on ensuring the quality and functionality of web and mobile applications. I create and execute test cases, report bugs, and verify fixes. Skilled in using tools like JIRA and Excel, I work closely with development teams to identify issues early and support smooth product releases.

PROJECTS

1- Prop Smart Realty (Real Estate Property Booking Portal)

Manually tested core features including property search, booking forms, and admin dashboards. Performed cross-browser testing to ensure consistent UI behavior. Validated data accuracy across forms and listings. Collaborated with developers to report and retest bugs. Ensured seamless booking flow across desktop and mobile devices.

2. Work Trak Solutions (Employee Attendance & Timesheet System)

Tested timesheet logging, leave workflows, and multi-level approval logic. Ensured correct time calculations, request status updates, and mobile responsiveness. Conducted manual regression testing during biweekly releases. Verified accurate data capture for employees and managers. Documented and maintained test scenarios and results across devices and form factors.

3. Trade Edge Solutions (B2B Order Management Portal)

Tested the complete order lifecycle including placement, tracking, approvals, and cancellations. Verified role-based access, UI consistency, and inventory updates across dashboards. Conducted exploratory and regression testing to identify bugs in workflows and business logic. Collaborated with the product team to optimize user journey and issue resolution.

4. Skill Verse E-Learning (E-Learning Subscription Platform)

Manually tested subscription activation, course access, assessments, scoring logic, and certificate generation. Ensured proper content visibility for different user roles. Conducted functional, UI, and boundary testing across devices and screen sizes. Collaborated with content and development teams to track, validate, and close bugs within tight timelines.

5. Sync Technologies (Inventory Management System)

Tested inventory modules including stock CRUD operations, low-stock alerts, warehouse transfers, and audit logs. Ensured consistency and accuracy in item records. Executed regression cycles during sprint releases. Documented test results and provided daily reports to the QA lead. Worked closely with backend teams to validate system responses.

6. Hire Bridge Technologies (Job Portal Management System)

Manually tested job listings, applications, resume uploads, and recruiter-side dashboards. Verified notifications, search filters, and form validations across user roles. Ensured seamless navigation and application tracking on desktop and mobile. Conducted exploratory testing to uncover UI inconsistencies and logic errors.

7. Fit Pulse (Fitness & Wellness Mobile App)

Tested onboarding, profile setup, workout logging, and daily fitness reminders. Conducted functionality and UI testing across Android and iOS devices. Ensured app performance and crash-free operation under real-time usage scenarios. Reported bugs, retested fixes, and maintained daily QA logs during release cycles.

- **EDUCATION**

- **B.Tech in Biotechnology**

IILM College of Engineering, Greater Noida

- **HSC (Class 12)**

Dayawati Modi Academy, CBSE

- **SSC (Class 10)**

Dayawati Modi Academy, CBSE

SKILLS

- Manual Testing
- Automation Testing
- Functional Testing
- Sanity Testing
- Smoke Testing
- Exploratory Testing
- API Testing (Postman, REST Assured)
- Bug Reporting
- Cross-Browser Testing, CI/CD Integration
- TestNG
- Selenium WebDriver
- User Acceptance Testing (UAT)
- Selenium WebDriver
- Java, Jenkins
- Maven
- GIT/GitHub
- JIRA
- POM
- Data-Driven Testing
- Hybrid Frameworks
- Keyword-Driven Framework
- Reporting
- Power BI
- MS Excel (VLOOKUP, Pivot Tables, Data Validation),
- MS Office
- Cucumber
- Agile Methodologies, STLC, SDLC.

- **CERTIFICATIONS**

- **Certified Automation Testing – Udemy** (Mar 2023 – Aug 2023)
- **JIRA Test Management for QA – Simplilearn**
- **Power BI Data Analyst Certification – Great Learning**
- **KPMG Virtual Internship – Data Analytics**
- **Manual Software Testing Masterclass – Udemy**

- **HOBBIES/ INTERESTS**
