PROFESSIONAL SUMMARY

Business Analyst with experience in stakeholder collaboration, process transformation, and digital reporting. Skilled at documenting future-state process flows, gathering functional requirements, and translating business needs into technology solutions. Proficient with tools like Power BI, Confluence, Jira, Visio, and Excel. Adept at working in Agile environments, managing reporting pipelines, and leading cross-functional communication.

PROFESSIONAL EXPERIENCE

Data Analyst

Sugar.fit

Nov 2024 – Present

Bengaluru, India

Developed Power BI dashboards to track glucose levels, lifestyle trends, and user engagement metrics, supporting personalized health strategies.

Collaborated with health coaches, nutritionists, and medical advisors to translate program objectives into measurable KPIs.

Worked with internal teams to redesign onboarding flows using feedback from surveys and performance data.

Led cross-functional requirement workshops, managing artifacts in Confluence and sprint tasks via Jira.

Defined and monitored SLAs for health metric tracking and built quarterly business review decks in PowerPoint for leadership.

Business Analyst

56 AI Technologies (56 Secure)

Dec 2023 – Nov 2024

Bengaluru, India

Translated business needs into clear, actionable solutions across projects like Zolo, BluSmart, and Zomato Hyperpure—ensuring alignment with long-term strategy and measurable impact.

Designed workflows for AI camera alerts and emergency response services by collaborating with tech and ops teams.

Mapped risk categories and control points for real-time threat detection solutions; documented SOPs in Confluence.

Used Visio to simulate SOS alert flows and optimized response-time parameters across city zones.

Managed cross-departmental backlog grooming and sprint planning using Jira for dashboarding and alerting pipelines.

Maintained end-to-end traceability of requirements, managing BRDs, user stories, and documentation from design through delivery.

Facilitated Agile ceremonies—stand-ups, retrospectives, and sprint planning—to drive accountability and ensure milestone delivery across teams.

Conducted impact assessments during scope changes and ensured timelines were realistic and aligned with delivery capacity.

Mentored intern on task prioritization and sprint participation to build delivery ownership and alignment.

Led end-user communication and documentation efforts, easing adoption through targeted messaging and training sessions.

Business Analyst Intern

EnKash

Nov 2023 – Dec 2023

Pune, India

Performed KPI analysis and automated Power BI reports for improved executive decision-making.

Gathered and translated customer feedback into UX suggestions; contributed to product enhancement backlog.

Android Developer Intern

Cycoos

Jan 2022 – May 2022

Gurugram, India

Built fitness tracking interface prototypes; increased user retention through usability improvements and testing cycles.

EDUCATION

Symbiosis International University <i>MBA in Information Technology</i>	Jun 2022 – May 2024 <i>Pune, India</i>
The Maharaja Sayajirao University of Baroda <i>Bachelor of Computer Applications</i>	Jun 2019 – May 2022 <i>Vadodara, India</i>

CERTIFICATIONS

- IBM Data Analyst Professional Certificate
- SAS Programmer Certification
- Six Sigma Yellow Belt
- PwC Data Visualization with Advanced Excel
- IIMA Pre-MBA Statistics
- SQL - HackerRank

KEY SKILLS

- Business Analysis:** Requirement Gathering, UAT, Traceability Matrix, Change Management, BRD, FSD, Agile Scrum
- Tools & Tech:** SQL, Python, Power BI, Tableau, Excel VBA, Jira, Confluence, Visio, SharePoint
- Methodologies:** Agile, Waterfall, OKRs, Sprint Planning, Strategic Thinking
- Soft Skills:** Stakeholder Communication, Documentation, Presentation Skills, Team Collaboration, Risk Awareness

PROJECTS

- Health Intelligence Dashboard (Sugar.fit)**

Built Power BI-based health metrics dashboard across 300+ members to track HbA1c, glucose variability, and plan adherence.
- Smart Threat Response (56 AI Technologies)**

Led process flow definition for real-time threat alerting and human-in-the-loop escalations integrated into emergency dispatch SLAs.
- Wire-Mesh Calculator – Jalaram Wire Company**

Digitized quote generation pipeline for a wire mesh supplier, reducing processing time by 30%.
