EDUCATION

- **Kalyani Government Engineering College, Nadia** July 2022 - June 2025
Bachelor of Technology, Computer Science and Engineering CGPA: 7.6
- **Birla Institute of Technology, Kolkata** July 2019 - June 2022
Diploma in Electronics and Instrumentation Engineering CGPA: 8.6
- **East Garia Educational Institution** May 2018
Secondary Education Percentage: 82

EXPERIENCE

- **Technical Content Engineer** June 2024 - Oct 2024
GeeksforGeeks Remote
 1. Created engaging content on **Data Science** and **AI-ML-DS**, including tutorials, blogs, and guides.
 2. Collaborated with SDE team for content accuracy and structure; ensured technical relevance.
 3. Optimized content for **SEO** and performed regular reviews to maintain up-to-date and error-free material.
 4. **Work Samples:** [geeksforgeeks.org/user/arponkumarchowdhury34/contributions/](https://www.geeksforgeeks.org/user/arponkumarchowdhury34/contributions/)
- **Technical Content Engineer Intern** Mar 2024 - May 2024
GeeksforGeeks Noida, UP
 1. Created engaging content on **TechTips** and Programming fundamentals, including tutorials, blogs, and guides.
 2. Collaborated with SDE team for content accuracy and structure; ensured technical relevance through continuous research.
 3. Optimized content for SEO and performed regular reviews to maintain up-to-date and error-free material.
- **Technical Content Writer Intern** Oct 2022 - Oct 2023
GeeksforGeeks Remote
 1. Worked closely with the **SEO Team** to plan and design Computer Science related Articles.
 2. Published **100+** and Improved **50+** Technical Articles related to **Computer Subjects**.
 3. Reviewed **250+** Technical Articles on the Tectips Domain and Suggested **150+** new topics.

PERSONAL PROJECTS

- **TNC Rides Request Demand Forecast using Machine Learning | [Link](#)**
Designed and implemented to analyze the significance of ride-hailing or Transportation Network Companies (TNCs)
 1. Developed a model using data from Ola, a leading ride-hailing service in Kolkata, to estimate the gap between **rider demands as well as driver supply** in a particular **location and time**.
 2. Analyzed the issue as if you had used the TNCs app sometimes, you must have paid some days less and some more for the same journey or location.
 3. Prepared the dataset would have the following attributes: **ride booking time, pickup location, and drop point latitude-longitude**.
- **IoT based Patient Health Monitoring System | [Link](#)**
*Designed a portable health monitoring system that measures the patient's **Body Temperature and Pulse Rate**.*
 1. Provide medical assistance according to the data received from the sensors, which are stored in **Cloud Server**.
 2. Developed the system which shows patients **temperature and heartbeat tracked live data with timestamps** over the Internet.
 3. **Tools/Technologies used** : Arduino Uno, ESP8266 Wi-Fi module, LM35 Temperature Sensor, Pulse Sensor, 16*2 LCD Display, Arduino Compiler, ThingSpeak.

TECHNICAL SKILLS

Basic Programming Languages: Java, C++, Python

Databases : Relational Database - SQL

Modern Tools : VS Code, GitHub, Microsoft Office, Arduino, Ahrefs, AI tools, Google Trends

Soft Skills : SEO, Keyword research, Email marketing, Communication, Team Work

POSITIONS OF RESPONSIBILITY | COURSES

- Awarded **two** Merit scholarships from the State Government and Educational Society.
- General Merit Rank **-188** among 56000+ candidates in Joint Entrance Examination - West Bengal
- **Class Representative (CR)**, Department of **CSE**, Kalyani Government Engineering College.
- Core Member of IoT and Machine Learning at **GDSC and Robotics Society - KGEC**.
- **Cultural Secretary - RIYAZ Music Club**, KGEC.
