EDUCATION

Bachelor of Technology in Computer Science Engineering

2021-2025

GIET University, Gunupur, Odisha

CGPA : 6.2

Higher Secondary (12th Grade Science, CBSE)

2020-2021

Gandhi Public School, Gunupur, Odisha

Percentage : 76.8

Secondary (10th Grade, CBSE)

2018-2019

Gandhi Public School, Gunupur, Odisha

Percentage : 78.4

SKILLS

Technical Skills	Python, SQL, Power BI, Tableau, Visual Studio, MS Excel, MS PowerPoint,
Data Skills	Data Cleaning, Data Analysis, Data Modeling, Dashboarding, Statistical Analysis
Soft Skills	Communication, Analytical Thinking, Problem Solving

Certifications

NPTEL

The Joy of Computing Using Python

- Covered fundamentals of programming using Python with applications in problem-solving, animations, web scraping, and data analysis.

Artificial Intelligence Training

Rinex technologies

- Completed a comprehensive training program covering AI, Machine learning, and Python programming.

Web Development

Y hills

- Hands-on experience in designing, developing, and maintaining web applications.
- Developed responsive and user-friendly web interfaces and assisted in building RESTful APIs and server side logic.

PROJECTS

Emotion based music recommendation system using Python. Developed a smart music recommendation system that suggests songs based on the user's emotional state, detected through facial expression analysis. Combined computer vision and machine learning enhance user experience with personalized music suggestions.

Intelligent workspace supervision suite. Designed and developed an AI-powered monitoring system to enhance productivity, compliance, and security in digital workspaces. The suite automates the supervision of user activity, application usage, and workspace conditions using machine learning and computer vision techniques.

Development of e-Portal for facilitating Case Management Hearing of various types of cases. Developed a secure and user-friendly e-Portal to streamline the management and virtual hearing of various types of legal and administrative cases. The system digitizes case tracking, scheduling, documentation, and communication between stakeholders.
