

Jayashree Paul

pauljayashree2002@gmail.com | [LinkedIn](#) | [Bengaluru, Karnataka](#)

EDUCATION

Vellore Institute of Technology
B.Tech in BioTechnology (8.89 CGPA)

Vellore, Tamil Nadu
Sept 2021 – Sept 2025

Auxilium Girls School
High School (97.8%)

Agartala, Tripura
2015 – 2021

EXPERIENCE

Analyst Intern - Center of Excellence
Biocon Biologics

May 2025 – Present
Bengaluru, Karnataka

- Responsible for building interactive dashboards and automating data inflow processes to streamline reporting and enhance data accessibility across teams.

Data Analyst Intern
Roche Pharmaceuticals

January 2024 – April 2025
Chennai, Tamil Nadu

- Created Visualizations using Power BI and Looker Studio to present insights on various business metrics, improving decision-making process
- Worked closely with cross-functional teams to design, implement, and optimize reporting dashboards, enabling more efficient monitoring of KPIs. Data cleaning and transformation techniques were used to ensure the accuracy and reliability of the data sets for analysis

Machine Learning Research Intern
Defense Institute of Advanced Technology

November 2023 – December 2023
Pune, Maharashtra

- Worked on the project titled "Prediction of efficient adsorption capacity of Biochar in removing the pesticides from the agricultural runoff". Developed predictive models using algorithms to achieve improved accuracy and reduced error rates

PUBLICATION

- Predictive Models for Removing Heavy Metal Water Pollutants with Biochar** May 2025
Exploring Neural Networks and Machine Learning
Authors: Dev Patra, Rajdeep Chaudhuri, Jayashree Paul, Balasubramanian Kandasubramanian, Amrita Nighojkar
Publication Link

CERTIFICATIONS/COURSES

- SQL Certificate (Basic) - HackerRank (certificate)
- SQL Certificate (Intermediate) - HackerRank (certificate)
- Mckinsey.org Forward Program - Mckinsey and Company (certificate)
- Foundations: Data, Data, Everywhere - Google - Coursera (certificate)
- Advanced Learning Algorithms - Stanford University, Coursera (certificate)
- Microsoft Azure Data Fundamentals (certificate)

SKILLS

- Programming Languages:** Python, SQL
- Data Analytics & Visualization:** Power BI, Looker Studio, Matplotlib, Seaborn, Data cleaning and preprocessing
- Machine Learning:** Machine Learning algorithms, Hyperparameter tuning, Jupyter Notebook

PROJECTS

- Predictive Models for Removing Heavy Metal Water Pollutants with Biochar: Exploring Neural Networks and Machine Learning - 2023**
 - Applied Machine learning algorithms to determine the model accuracy, performed hyperparameter tuning to predict the effectiveness of the biochar
 - Tools Used: Python, Machine Learning, Jupyter Notebook, Data Visualizations (Matplotlib, Seaborn)
