Business Analyst with 3+ years of experience in banking and financial services. Skilled in data analysis, process optimization, and delivering tech-driven solutions to enhance efficiency and customer experience. Proven track record of collaborating with teams and stakeholders to drive business growth and ensure regulatory compliance.

SKILLS

Requirements Gathering & Analysis	Regulatory Compliance (NPCI, NSDL)	Software Testing & Quality Assurance
Process Improvement & Gap Analysis	User Acceptance Testing (UAT)	Data Analysis & Reporting
Digital Payment Systems (NACH, CTS, RECON)	Stakeholder Collaboration & Communication	Business Process Automation
		Change Management & Documentation

PROFESSIONAL EXPERIENCE

Business Analyst
RBL Bank | Mumbai, India

January 2023 – Present

- Collaborated with business stakeholders and IT teams to gather, analyze, and document business requirements for banking systems, ensuring alignment with strategic goals.
- Led multiple digital payment projects simultaneously, contributing to the bank's growth and improved customer satisfaction.
- Conducted gap analyses and recommended solutions to optimize operational workflows, leading to increased efficiency.
- Managed NACH, CTS, and RECON applications, ensuring compliance with regulatory guidelines.

Key Projects:

- **E-Mandate Registration using Aadhaar Variant**

Spearheaded the implementation of an Aadhaar-based e-mandate registration process, reducing processing time by 25% and ensuring compliance with NPCI regulations.

- **Customer Onboarding Process Optimization**

Streamlined the customer onboarding process by automating manual tasks, improving customer satisfaction and reducing processing time.

Software Test Engineer

Kalpataru Computer Services | Mumbai, India

September 2019 – January 2023

- Performed end-to-end testing of trading workflows, including order entry, execution, and settlement, ensuring accuracy and compliance with business rules.
- Validated the accuracy of capital market data feeds and trade reconciliation processes, identifying issues and collaborating with development teams for resolution.
- Supported UAT by addressing business users' concerns and ensuring the successful implementation of new features.

- Worked as a Business Analyst for HDFC Bank (client-side) from January 2022 to January 2023, assisting in the implementation of regulatory projects such as the DDPI (Digital Delivery Platform Interface).

Key Project:

- **Regulatory Project of NSDL**

Assisted in the implementation of the DDPI, ensuring compliance with regulatory requirements and contributing to the efficiency of trade processing.

EDUCATION

Mumbai University | Mumbai, India
Bachelor of Science in Information Technology
(2016 – 2019)
