

EDUCATIONAL QUALIFICATIONS

COURSE/EXAMINATION	INSTITUTION	YEAR OF PASSING	RESULT
B.A Economics (Hons.)	O.P Jindal Global University	2024	6 (CGPA)
AISSEE (Commerce)	Delhi Public School, Ghaziabad	2021	89%
AISSE	Delhi Public School, Ghaziabad	2019	83%

SKILLS

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Beautiful Soup, Scikit-Learn, Stats models
- Tools: MySQL, MSSQL, PostgreSQL, Power BI, Tableau, Excel, PowerPoint
- Platforms: Jupyter Notebook, Visual Studio Code
- Analytics Techniques: Exploratory Data Analysis (EDA), Forecasting, Regression Analysis
- Soft Skills: Communication, Problem Solving, Leadership, Analytical Thinking

INTERSHIPS

MARKETING AND ANALYSIS TRAINEE || MATERIALJULY 2024 - DECEMBER 2024

- Segmented **12,000+ contacts** using **ZoomInfo** and **Apollo**, improving campaign open rates by 25%.
- Created **6+ automated workflows** in **Salesforce Pardot**, reducing manual effort by **40%** and boosting lead follow-up speed.
- Ran **10+ A/B tests** on templates and landing pages, leading to a 2.3% increase in **conversion rates**.
- Built **4 interactive dashboards** in **Excel** and **Power BI** to monitor 8+ KPIs, enabling 15% faster decision-making.

RESEARCH INTERN || GREEN GOVERNANCE INITIATIVEJULY 2023 - AUGUST 2023

- Analyzed **100+ survey responses** on PMAYG, identifying 5 key gaps in policy implementation.
- Drafted 3 comprehensive **reports**, resulting in 2 actionable recommendations adopted by the team.
- Presented findings to a panel of **5+ stakeholders**, influencing discussions on rural housing improvements.
- Assessed **3 state-level policies** under PMAYG, aligning recommendations with UN SDG's and increasing program **visibility by 12%**.

PROJECTS

MARKETING ANALYSIS

- Cleaned and structured **15K+ campaign records** using **SQL**, removing anomalies and joining 5+ tables for analysis-ready data.
- Performed sentiment analysis on **3,000+ reviews** using **Python**, classifying 82% as positive, aiding customer perception insights.
- Built an interactive **dashboard** in Power BI to track **6 key KPIs**, improving stakeholder visibility into campaign outcomes.
- Analyzed metrics like **CTR**, **Conversion Rate**, and ROI, identifying a **12% drop** in engagement tied to subject line changes.

HOTEL BOOKINGS EDA || GEEKS FOR GEEKS

- Cleaned and preprocessed **119K+ booking records** using **Pandas** and **NumPy**, resolving 100% missing values to ensure data integrity.
- Conducted **EDA** to identify **5+ key factors** behind booking cancellations, improving model readiness.
- Analyzed pricing strategies across **3+ customer segments**, uncovering **20% higher cancellations** in low-lead-time bookings.
- Compiled a report with **10+ insights** and **4 recommendations**, enhancing booking retention strategies.

SUPERSTORE SALES DASHBOARD || GEEKS FOR GEEKS

- Designed a **Power BI dashboard** visualizing sales data across **4 categories** and **3 customer segments** to improve business tracking.
- Processed **10K+ records** using **DAX** and **Excel**, reducing data errors by **15%** and enhancing reporting accuracy.
- Identified top **5 subcategories** and seasonal trends through monthly and **regional sales analysis**.
- Improved executive decision-making by presenting **6 key KPIs** via an interactive dashboard.

PIZZA STORE SALES ANALYSIS

- Executed **20+ advanced SQL** queries to analyze revenue and product-level performance across 50+ menu items.
- Applied **time series analysis** to reveal monthly sales patterns, identifying a **30% sales spike** during weekends.
- Leveraged **SQL joins, grouping, and aggregates** to extract 10+ actionable business insights.
- Built a category-wise **Power BI dashboard**, enhancing visibility across **5 locations** and increasing sales insight depth by 25%.

CERTIFICATIONS/COURSES

COMPLETE DATA ANALYTICS PROGRAM || GEEKS FOR GEEKS

- Completed a 12-week intensive course, mastering tools like **Python, SQL, Tableau, Power BI**, and **Excel** through 20+ hands-on tasks.
- Built **5+** end-to-end projects, using SQL for data extraction, Python for **statistical analysis**, and BI tools for **interactive dashboards**.
- Enhanced data-driven decision-making skills by analyzing datasets with **100K+** records, improving insight generation speed by 30%.

ACCENTURE DATA ANALYTICS & VISUALIZATION JOB SIMULATION || FORAGE

- Gained practical exposure to the data lifecycle and **ETL process**, simulating tasks aligned with real-world analytics roles.
- Applied **Excel** for **data cleaning, visualization, and KPI tracking**, completing 5 simulated business cases.
- Analyzed datasets to identify key **business trends, improving analytical reasoning and stakeholder reporting accuracy by 20% .**

OTHERS

- Completed multiple experience programs on Forage, gaining exposure to real-world scenarios across domains like consulting and analytics.
- Actively involved in gym training and represented the college in inter-college powerlifting competitions, demonstrating discipline.
- Volunteered as part of the organizing team for Youthopia - The Annual Economics Fest, coordinating event logistics and outreach.
