Profile

To leverage my skills in problem-solving, effective communication, and cross-functional collaboration to drive business success, enhance operational efficiency, and contribute to the continuous growth of the organization while fostering my professional development through new challenges and opportunities.

Professional Experience

Business Analyst Trainee

Envision Beyond India Private Limited, Bangalore, Karnataka || April 2025 – Present

- Assisted in the SaaS-based e-Invoice middleware project, contributing to on-time delivery and supporting Agile processes.
- Supported requirement gathering and analysis by participating in client interactions and documenting key insights to align technical implementation with business needs.
- Helped in preparing product demos and participated in end-to-end UAT to validate functionality and user readiness.
- Collaborated with 5+ cross-functional teams to support API workflow automation and assisted in creating interactive dashboards for KPI tracking.
- Contributed to preparing BRD, FRD, and process documentation to ensure clarity of requirements and smooth project execution.

Data Analyst Intern

Unified Mentor || 08/2024 - 09/2024

Internship focused on data analysis.

- Improved data analysis skills and gained practical knowledge through hands-on experience.
- Analyzed large datasets to identify trends and patterns for informed business decisions.
- Collaborated with cross-functional teams to present findings, enhancing communication and teamwork skills

Projects

Amazon Sales Analysis

Project analyzing Amazon sales data to drive actionable insights.

- Conducted a comprehensive analysis of Amazon sales data to identify key trends and patterns influencing revenue.
- Utilized SQL to extract and manipulate large datasets, ensuring data integrity throughout the process.
- Employed Excel for detailed data cleaning, analysis, and exploratory data analysis, allowing for deeper insights.
- Developed interactive visualizations in Power BI to present findings effectively.
- Collaborated with a cross-functional team to explain insights and recommendations, facilitating data-driven decisions to enhance sales strategies.
- Created a final presentation that summarized key findings and actionable recommendations, enhancing stakeholder engagement.
- Implemented feedback from stakeholders to refine the analysis process, leading to more targeted insights in future reports.

Pizza Sales Analysis

Project analyzing pizza sales data for marketing strategies.

- Analyzed pizza sales data to uncover significant sales trends and customer preferences across different demographics.
- Used SQL for querying and aggregating data from multiple sources, ensuring comprehensive analysis.
- Leveraged Excel for data cleaning and visualization, which helped identify actionable insights.
- Created detailed visual reports in Power BI to communicate findings effectively.
- Conducted follow-up sessions to gather feedback and refine analysis based on team input, ensuring continuous improvement in the reporting process.
- Worked closely with team members to present findings, improving communication skills and fostering a collaborative approach to problem-solving.
- Developed recommendations for marketing strategies based on analysis, contributing to a potential increase in sales
