Education

Indian Institute of Information Technology, Nagpur

2022–2026

Bachelor of Technology in Computer Science, Specialization in Artificial Intelligence and Machine Learning

Experience

Product Intern — Outboundry(Jan 2025 – March 2025)

- Worked cross-functionally with engineering and design to launch automated email workflows, improving campaign conversion rate by 8% and reducing manual steps by 30%.
- Enhanced LinkedIn outreach automation by auditing UX flows and prioritizing technical debt; fixed 10+ bugs, improved UI intuitiveness, and grew adoption rate by 11%.
- Defined product success metrics (onboarding funnel drop-off, activation rate) in python; led A/B tests and drove a 20% increase in onboarding completion.

Business Analytics Intern — Allo Innware(Aug 2024-Sep 2024)

- Conducted EDA and performed feature engineering on sales and customer behavior data to uncover key purchasing trends and segment patterns, contributing to marketing strategies that drove a 6% increase in monthly sales.
- Designed and deployed interactive dashboards using data aggregation, filtering, and time-series analysis to generate performance insights, streamline reporting, and enable faster, data-driven decision-making across teams.

Projects

Product Sales Forecasting

- Implemented an end-to-end time series forecasting pipeline using Python libraries (**pandas**, **statsmodels**) with techniques like data cleaning, feature engineering, rolling averages, seasonal-trend decomposition (STL), and SARIMA modeling, incorporating seasonality, day-of-week, and holiday effects.
- Achieved 85% forecast accuracy on daily product-level sales data, improving demand prediction, reducing stockouts and overstock issues by 30%, and enabling data-driven inventory optimization for high-priority SKUs.

Dynamic Supply Chain Health Dashboard

- Designed a SQL-based dashboard to track real-time supply chain metrics like order delays, inventory stockouts, and SKU-level fulfillment performance across multiple warehouses.
- Created time-series and anomaly detection queries to identify inventory mismatches and delayed dispatches, driving faster operational response and improved stock planning.

AI-Powered News Analysis and Summarization App

- Developed an end-to-end news analysis application using Streamlit, automating global news scraping via NewsAPI, abstractive summarization using Facebook BART, and keyword extraction using RAKE for identifying key topics.
- Integrated NLP pipelines with NLTK, spaCy, and Hugging Face Transformers to process raw content, translate summaries into 10 Indian languages via Google Translate, and improve readability with custom keyword highlighting.
- Implemented intelligent filtering and preprocessing techniques utilizing NewsAPI, language models, and spell correction, enabling real-time generation of 150-word multilingual summaries, reducing research time by 70%.

Achievements

KIRIT 5.0 National Winner: Won amongst 10,000 teams in a case study competition organized by the Kirloskar Group.

National Entrepreneurship Drive Winner, IIT Guwahati: Proposed a strategic revamp plan on behalf of E-cell IIITN.

Vyapar Vichar Winner, IIIT Nagpur: Won a product management competition by demonstrating product thinking.

Shark Tank Winner, LAD Nagpur: Presented a business idea focused on empowering laborers and reshaping the industry.

Skills

Data Analysis: SQL, Python (pandas, NumPy, matplotlib), Excel, Power BI, Tableau, data cleaning, EDA, dashboarding.

Product Business Analytics: A/B Testing, Funnel Analysis, User Behavior Tracking (Mixpanel), Metrics Definition,

AI Automation Tools: OpenAI GPT, Hugging Face, Lovable, Napkin AI, DALL-E, RunwayML, Miro.

Technical Foundations: HTML/CSS, JavaScript, C/C++, Flask, TensorFlow, PyTorch, Keras, OpenCV.

Position of Responsibility

Head of Public Relations, IIITN — Led a team of 15 to plan and execute outreach campaigns, boosting event visibility and engagement. Coordinated with sponsors, media, and internal teams to ensure smooth communication and strong brand presence during key technical and entrepreneurial events.
