Project Experience

Business Advisory Analyst

Accenture | Pune | Mar 2021 – Nov 2023

- Audited invoices and vendor charges with 98% accuracy, helping maintain financial compliance and reduce errors.
- Resolved logistics issues by working closely with internal teams and vendors, keeping customer satisfaction above 95%.
- Set up and tracked KPIs to monitor operations and highlight areas for improvement.
- Worked with teams across procurement, logistics, and finance to improve processes, leading to a 20% boost in efficiency.
- Documented and updated SOPs to ensure consistency and support smooth onboarding.
- Held regular check-ins with stakeholders to stay aligned on goals and adapt quickly to changes in the business.
- Supported data analysis for procurement and supply chain operations, identifying trends and cost-saving opportunities.
- Helped translate business needs into functional requirements for system updates and process changes.
- Maintained accurate records and reports to support audits and internal reviews.
- Participated in system testing and user training during process improvement initiatives.

Specialist

AXA Business Services | Pune | April 2017 – February 2020

- Translated complex medical documents with 100% accuracy, ensuring clarity and compliance with industry standards.
- Processed healthcare claims in line with SLA requirements, maintaining high accuracy and turnaround rates.
- Delivered client-facing presentations that helped clarify technical content, leading to a 15% boost in satisfaction scores.
- Stepped in to supervise day-to-day team operations during management absences, ensuring continuity and performance.
- Worked with cross-functional teams to brainstorm and implement practical solutions to operational challenges.
- Acted as a liaison between technical teams and end-users to improve communication and clarify functional requirements.
- Documented processes and gathered user feedback to identify pain points and recommend system improvements.

Data Analyst

Translang Ways Solutions | Pune | October 2016 – April 2017

- Translated and localized technical and business documents between French and English, ensuring accuracy and clarity for cross-functional teams.
- Facilitated meetings and requirements-gathering sessions with French-speaking stakeholders, bridging communication gaps and ensuring alignment.
- Supported international projects by providing culturally accurate translations and insights, improving user adoption and stakeholder satisfaction.
- Conducted in-depth analysis of business operations data to identify trends, patterns, and areas for improvement.
- Developed and maintained documentation related to processes, issues, and solutions.
