Profile Summary:

- As a Data Analytics working with **Logistics Operation Analytics** project create the Dashboard and Report.
- Skilled in data visualization using **Advanced Excel, Power BI, SQL Server and having knowledge in python** and focusing on Created interactive dashboards and sharing the reports.
- Strong experience in Data cleaning, Data transformation, Data Modeling, Data Visualization using Advanced Excel and BI tools.
- Having strong experience in Collecting the datasets and Data Cleansing and Data Transformation.
- Proficient in **Advanced Excel** functions and formulas and Macros. And Power BI functions, writing DAX expression and creating-interactive dashboard Data Visualization.
- Having working knowledge in SQL Fundamentals and Join operators and Group by, Order By etc.,
- Strong attention to detail and a commitment to delivering high-quality analysis and reports.
- Excellent **problem-solving skills** and a proactive approach to identifying and addressing challenges.
- Effective **communication skills**, with the ability to present complex technical concepts to non-technical stakeholders.
- Team player with a collaborative mindset, comfortable working in cross-functional teams.
- Quick learner with a passion for staying updated on emerging trends and technologies in data analytics.
- Demonstrated ability to work under pressure and meet tight deadlines while maintaining accuracy and quality.

Education:

- **Bachelor of Technology in Electronics and Communication Engineering.**
From Sri Venkateswara College of Engineering and Technology | May-2023

Skills:

- **Advance Excel:**
Pivot Tables, VLOOKUP, Formulas, Data Visualization, Conditional Formatting, Spreadsheet Management, Data Modelling.
- **Power BI:**
Data Visualization, Dashboard Creation, Report Design, DAX (Data Analysis Expressions), Power Query, Data Modelling, Power BI Desktop, Power BI Service, Interactive Visualizations.
- **SQL:**
SQL Queries, Database Management, Data Extraction, Data Manipulation, Data Analysis, Relational Databases, SQL Server, MySQL, Database Design.

- **PYTHON:**

Variables and Data Types ,Operators ,Conditional Statements, Loops, Functions, Lists, Tuples, and Dictionaries.

Work Experience:

Project : Logistic Operation

[Aug 2024 – Dec 2024]

Responsibilities:

- Collecting datasets in **various ways and formats and combining the data.**
- Extensive experience in Transforming unstructured data into structured data using advanced Excel.
- Building relationships between **various tables in Power Pivot.**
- Proficient in Excel functions and formula writing, particularly for **Pivot Tables, Pivot Charts, and creating dashboards and reports.**
- Extensive experience in data modeling using the Power Pivot model.
- Skilled in data analysis, **data visualization, dashboards, and direct connectivity to data sources in Excel and Power BI.**
- Proficient in transformations such as merging queries, appending queries, pivoting columns, unpivoting columns, adding custom columns, splitting columns, and merging columns.
- Strong language proficiency in English, comprehensive tool knowledge, and functionality understanding, along with excellent written and verbal communication skills.
