

ATUL YADAV

Data Analyst

Mumbai, Maharashtra • 9960124700 • [Gmail](#) • [Linkedin](#)

SUMMARY

Aspiring data analyst proficient in Python, SQL, and Excel, with expertise in analyzing huge data sets, identifying meaningful insights, and creating interactive dashboards using Tableau and Power BI. With a strong foundation in accounting and a passion for using data to create impactful business solutions. Seeking a data analyst position to use analytical skills and contribute to data-driven decision-making processes.

SKILLS

Technical: SQL, Python, Statistics, Data Visualization, Machine Learning

Tools: Power BI, Tableau, Excel, MySQL

WORK EXPERIENCE

Data Analyst Internship, Trainity

02/2025 - 05/2025

- Utilized SQL, Excel, and Tableau to perform data cleaning, transformation, and analysis on datasets.
- Built interactive dashboards and reports to visualize key performance indicators (KPIs).
- Applied statistical techniques to identify trends, correlations, and insights across various areas such as operations, marketing, and finance.
- Documented analytical processes and findings, ensuring clarity for stakeholders.
- Collaborated with the team to complete projects, enhancing problem-solving, communication, and presentation skills.

Office Executive, Pooja Enterprises

07/2021 - 08/2023

- Assisted in various business divisions, such as project management, finance, and procurement, to make sure daily operations ran smoothly.
 - Efficiently distributed resources and kept costs under control by monitoring project records, keeping an eye on budgets, and ensuring accurate financial reporting.
 - Encouraged interaction among teams, clients, and subcontractors by organizing and planning meetings and site visits.
 - Implemented administrative procedures that improved communications and operational efficiency.
 - Facilitated procurement procedures, including identifying suppliers, discussing costs, and managing orders to ensure timely delivery of goods and services.
-

PROJECTS

Tata Data Visualisation:

12/2024

- Created advanced data visualizations for a simulation project with Tata Consultancy Services using tools like Tableau and Power BI, enabling effective insights presentation and data-driven decision-making.
- Prepared strategic questions for client leadership meetings and designed analytical visuals, demonstrating expertise in data analysis, visualization, and communication to optimize business strategies.

PwC Switzerland Power BI:

11/2024

- Strengthened Power BI expertise through a job simulation by designing client-focused dashboards to visualize key performance indicators (KPIs) and support data-driven decision-making.
- Applied analytical problem-solving skills to analyze HR data, identify root causes of executive-level gender balance issues, and provide actionable, data-driven recommendations while effectively communicating insights to stakeholders.

Retail Data Analytics:	08/2024
• Developed hands-on expertise in Python, SQL, and Excel to analyze large datasets, apply advanced statistical methods, and identify trends, delivering actionable business insights. • Communicated complex data findings to management through concise presentations, enabling data-driven decision-making and strategic business improvements. • Completed a capstone project analyzing large datasets and providing actionable, goal-oriented recommendations to drive business performance and improvements.	

HR Analytics:	12/2023 - 02/2024
• Analyzed large, complex datasets to identify patterns and trends, providing actionable insights that improved strategic decision-making. • Created interactive dashboards using Tableau and Power BI to effectively communicate data insights and drive stakeholder engagement. • Conducted a comprehensive analysis of employee attrition, identifying key causes of turnover and providing data-driven recommendations to enhance retention and improve company performance.
