Education

Graphic Era University, Dehradun

Sep 2021 – May 2025

B.Tech in Computer Engineering

CGPA: 8.97/10

Work Experience

Indian Oil Corporation Limited (IOCL)

Sep 2024 – Apr 2025

Software Development Intern

- Spearheaded the development of **MERN stack-based web applications** for LPG distribution tracking and real-time plant monitoring, **improving operational efficiency by 30%**.
- Engineered robust automated testing frameworks using **Playwright and Puppeteer**, achieving **95%** code coverage and significantly strengthening system stability and performance.

Graphic Era University, Dehradun

Mar 2024 – Jun 2024

Summer Research Intern: AI in Radiology

- Developed and optimized **CNN models (ResNet50, Xception, etc.)** for automated fracture detection in X-rays, achieving **94–95% accuracy and AUC-ROC up to 1.00**.
- Improved diagnostic performance by 15% and reduced false positives by 25% using **data augmentation, hyperparameter tuning, and SMOTE**.

Projects

Sin Teck Electronic: Cloud-Native E-Commerce Infrastructure

[Live Project Link](#)

- Architected a **scalable e-commerce platform** using **Cloudflare Workers**, supporting 100,000+ users with **OAuth 2.0 authentication** and horizontal scaling.
- Utilized **Cloudflare D1** for data storage and Resend for 100+ daily emails, ensuring high availability.

Automated Code Review System

- Developed an **AI-based code review system** using Python (Pylint, AST) and Random Forest ML for error detection, with real-time feedback via a **React frontend**.

MediTrack: AI-Powered Patient Monitoring System

- Developed a real-time patient monitoring platform for 200+ users using **Python, Flask, and MongoDB**, integrating wearable data for health tracking.
- Implemented **anomaly detection with scikit-learn**, boosting early intervention **accuracy by 35%** through predictive alerts and visual dashboards.

Publications & Research

[1] P. Tangade, "Chat with PDF using LangChain Model," in Proc. IEEE Int. Conf. Adv. Inf. Technol. (ICAIT), Karnataka, India, Jul. 2024.

[2] P. Tangade, "Identification of AI-Generated Text using Perplexity and Burstiness," in Proc. IEEE Mysore Sub Section Int. Conf., Mysore, India, Oct. 2024.

Achievements

- Presented "**Chat with PDF using LangChain Model**" at IEEE ICAIT-2024, enhancing PDF interaction with NLP techniques.
- Presented "**Identification of AI-Generated Text using Perplexity and Burstiness**" at IEEE Mysore Sub Section Int. Conf. 2024.

Leadership & Extracurricular Activities

Institute of Electrical and Electronics Engineers (IEEE)

Jul 2023 – Oct 2024

Student Branch, Treasurer

- Spearheaded 6+ workshops** and events for 300+ participants as an IEEE student member, **raising 1.5 million (INR 15 lakh)** in funds to enhance technical expertise and drive collaboration within the engineering community.

Certifications

- Microsoft Certified: **Azure Solutions Architect**

Technical Skills

- Python, MySQL, C++, Java, TensorFlow, PyTorch, Scikit-learn, MLOps, Tableau, Selenium, Postman, Git, Jira
