PROFILE

Information Science student with hands-on experience in software development, including front- and back-end technologies. Proficient in core CS concepts such as data structures, algorithms, operating systems, and computer networks. Experience in building scalable, real-world solutions and contributing to open-source projects. Looking for opportunities to leverage expertise in functional programming, automation, and full-stack development.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, Python, TypeScript, SQL

Frameworks: React, Express.js, Next.js, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Postman, MongoDB, Node.js, Npm, MySQL, Visual Studio Code, Sublime Text

Databases: MongoDB, MySQL

Platforms: Linux, Vercel

Others: Multi-threading, OOP, Scripting, Networks, Databases

PROJECTS

QuickShow - Full-Stack Movie Ticket Booking Application

May 2025 – Jun 2025

- Developed Quickshow, a full-stack movie booking app with Clerk auth, admin dashboard, and real-time seat booking, with payment gateway integration.
- Enabled role-based access to manage movies, theaters, and showtimes through an intuitive admin panel.
- Built with MERN stack and styled using Tailwind CSS for a responsive, mobile-friendly design.

WoodCafe - E-commerce Food Website (Frontend)

Jan 2025 – Feb 2025

- Built WoodCafe, a modern and fully responsive front- end food website using React.js and Tailwind CSS.
- Designed and implemented a real-time search feature for filtering products.
- Implemented interactive UI elements (hover, transitions, scroll)

Password Generator

Nov 2024 – Dec 2024

- Created a secure password generation tool with customizable options (length, symbols, numbers, etc.), real time strength meter, and clipboard copy focused on usability and front-end logic.

ACHIEVEMENTS

National-level Hackathon - Participant

Sep 2023 – Sep 2023

- Participated in a national-level hackathon was an incredibly rewarding experience! Over 24 intense hours, my team and I collaborated with diverse talents, all focused on developing innovative solutions to real-world problems. It was a fantastic opportunity to sharpen my technical and soft skills, getting hands-on with new technologies while honing problem-solving and teamwork under pressure.

EDUCATION

Bachelor of Engineering in Information Science and Engineering

Basaveshwar Engineering College | CGPA - 8.67

Sept 2026

Bagalkot, India

CERTIFICATIONS

- Introduction to Cybersecurity**
- Cisco Networking Academy

Jul 2025 — Jul 2025
