ABOUT

- Aspiring PM skilled in user research, data analysis, & **cross-functional** collaboration, focusing on user-centric digital product development
- Skilled in requirements, **prioritization**, roadmap planning, and aligning product strategies with business objectives & customer needs meet
- Committed to continuous learning, rapid iteration, and contributing to all stages of the product **lifecycle** in fast-paced, agile environments

KEY PROJECTS

FreeHands - Multi-User Household Service App | [Link](#)

- Spearheaded end-to-end development of a multi-user household service platform, translating **3** key user group needs into **functional** specs
- Defined product roadmap & prioritized **10+** core features (service booking, role dashboards), enhancing user journey & task completions
- Collaborated with cross-functional teams and build MVP from wireframes and ERDs, sped dev cycles by **30%** via agile sprints efficiently
- Improved onboarding/service request flows, cutting user drop-off in early interaction, boosting operational **efficiency** across key user roles

Capstone Project - Business Data Management (BDM) | [Link](#)

- Analyzed 4 weeks of transactional data across **100+** SKUs to identify inventory bottlenecks & design an optimized, data-backed processes
- Identified & prioritized **5+** key products decision using analytical frameworks (ABC, market basket) to cut stockouts & optimize inventory
- Teamed cross-functionally to define product requirements, boosting shelf availability by **15%**, and cutting projected inventory holding cost
- Compiled a stakeholder-facing insight report with **10+** data-backed recommendations & supporting initiatives like improved restocking etc

Canteen Ordering System for Unilever | [Link](#)

- Led the design of a digital meal ordering system by translating pain points as **30+** minute wait times and **25%** food wastage into solutions
- Defined and prioritized **10+** high-impact features including pre-ordering, real-time menu updates, and payroll-integrated payments value
- Collaborated stakeholders and aligned product capabilities with business goals, enhancing service speed by up to **30** minutes per employee
- Delivered a scalable product roadmap supported by performance **metrics**, laying foundation for future enhancements such as mobile app

SKILLS

- Product Strategy | Roadmaps | Feature Prioritization | Agile / Scrum | MVP Planning | Product Analytics | A/B Testing | **Wireframing**
- PRD** Writing | Backlog Management | Stakeholder Communication | Problem Solving | UML | Use Case Diagram | Prototyping
