👤 Profile

Data Science seeking opportunity to work in a friendly and fast growing environment where my analytical and methodical skills will be of great value in achieving the company's missions and goals. Complete Master's in applied Statistics with Specialization in Data Science At MIT ADT University, Pune.

🎓 Education

Master'S in Applied Statistics (Data Science),

MIT ADT UNIVERSITY, Pune

2021 – 2023 | Pune, india

First Class With Distinction

B.sc (Statistics), Shivaji University Kolhapur

2018 – 2021 | india

First Class With Distinction

HSC, Balwant collge vita

2018 | vita, india

First Class

🧠 Skills

Computational Tools: — MS Excel, R Programming ,Python, MySQL, Power BI,, **Soft Skills:** — Problem Solving, Time Management, Presentation, Group Discussion, **Technical Skills:** — Statistics, Data Analysis, Data cleaning, Data Pre-Processing,Data Visualization, Data Mining, Statistics Modelling, Machine Learning

🌐 Languages

Marathi Hindi English

🔑 Interests

Travelling, Dancing, Cooking

📁 Professional Experience

Data Science Intern,, Lets Grow More virtual Intership

02/2024 | Pune

- Execulated data cleaning and pre-processing using python.
- Executed Machine Learning Algorithms in Python.
- Performed k-NN, Decision Tree and Random forest Algorithms for Classification.

Data Analyst, PSYLIQ Intership

08/2024 | Mumbai, India

- During this internship, I will have the opportunity to gain invaluable hands-on experience in various aspects of data analysis and interpretation.
- I responsibilities will include tasks such as data collection, analysis, visualization, and deriving Meaningful insights.

📁 Projects

Study on Australian Fatal Accidents Data

- Led the data pre-processing and conducted extensive Exploratory Data Analysis(EDA) to extract valuable insights.
- Presented the project report to a jury, effectively communicating the significance of the finding and their potential impact on the organization.
- Using Exploratory data analysis and study on accidents cases,2021
- Tools: Python, MS-Excel,

Study on Hotel Booking Analysis

- Led the data collection effort,designing and distributing comprehensive questionnaires to gather crucial information on the unemployment scenario across sectors.
- Utilized statistical tools and techniques to process and Explore the data to understand its characteristics,patterns,correlations,and trends.
- Tools: Python, Excel, MYSQL

Study Detection Of Insurance Fraud Claim's

- Execulated data cleaning and pre-processing using python.
- Visualization techniques are often used to gain insights.
- Create new features or transform existing ones to improve the performance of machine learning models.
- Tools: Python, MS-Excel, Power Bi

📁 Certification

Hand On workshop on Algorithms Development In data Science,

MIT ADT University,05/08/2022

PYTHON And Tableau

SKILL-SLASH,30/08/2022

Data Science and AI career Bootcamp,

Datamites,15/09/2022

Python and ML Fundamentals

Perfect Plan B Elearning,29/09/2022

SQL For Data Science

Great Learning, .05/02/2023

Data Visualization with Power BI

Great Learning , 15/05/2023

🏠 Additional Activities

8 th World Parliment of Science, religion and philosophy.

2022 | Pune, India
