WORK EXPERIENCE

[RXN Electric](#) | Delhi, India

August 2024 – September 2024

Software Developer Intern

- **Managed end-to-end development** of RXN Electric's official website using HTML, CSS, JavaScript, and Tailwind CSS, ensuring responsive design and seamless user experience.
- **Maintained and updated core website modules** like product categories, shop section, and technical blogs, improving accessibility and customer engagement.
- **Handled backend database operations** using MySQL to manage user data, product listings, and transactional records, optimizing data retrieval and integrity.

[Dot Piper](#) | Delhi, India

March 2025– June 2025

Software Engineer Intern

- **Developed and optimized backend services** using Node.js and Express to support WalkThru's AI-powered documentation sync tool, enabling real-time code-to-doc updates inside IDEs.
- **Performed comprehensive testing** including monkey testing, JUnit, alpha and beta testing to identify bugs, improve system resilience, and ensure production readiness.

PROJECTS

Budget Tracker | MERN Stack

[Project live link](#)

- BudgetTracker is a cutting-edge end-to-end budget management application built using a robust technology stack that combines the power of TypeScript ReactJS PostgreSQL and a variety of other innovative tools.
- Category Management: Users can create new categories to organize their financial data making it easier to analyse and manage their spending habits.
- Data Export to CSV: BudgetTracker now supports exporting financial data to CSV files, allowing users to download and analyse their data outside the app.

POSITIONS OF RESPONSIBILITY

Tech Vision Alliance Club MATT, Delhi | President

August 2023 – January 2025

- Organized and led multiple workshops on various tech topics, enhancing students' Worked and attended workshops on skills and knowledge in cutting-edge technologies.
- Coordinated and executed inter-college hackathons, fostering innovation and collaboration among students from different institutions, invited industry experts from leading MNCs to speak at events, providing valuable insights and networking opportunities for attendees.

Tech surge & Mridang | PR Team, Discipline Head, Society Convener

March 2023 –April 2024

- As Society Convener, I effectively managed the overall organization of the events, ensuring seamless collaboration among different teams, from planning to execution.
- As a member of the PR Team, I spearheaded promotional campaigns, building relationships with sponsors, participants, and stakeholders to maximize event outreach and engagement.
