WORK EXPERIENCE

Business Development & Analyst

January 2025 - Present

- DIGIMANTRA
- Identified and qualified new business opportunities in target markets, contributing to improved client acquisition and revenue growth.
- Built and maintained a strong sales pipeline through lead research and outreach using LinkedIn, email campaigns, and CRM tools.
- Collaborated with pre-sales and technical teams to define project scope and resource planning.
- Tracked project performance, ensuring alignment with timelines, budgets, and client expectations.
- Generated detailed sales reports and dashboards using Excel and CRM systems to support strategic decisions.
- Maintained accurate sales activity records and supported end-to-end sales processes from lead generation to post-sales follow-up.

Business Development & Lead Generation Executive

July 2024 - December 2024

- PRK Technologies
- Executed effective outreach strategies including cold calling, email campaigns, LinkedIn engagement, and in-person networking.
- Built and nurtured long-term client relationships, guiding prospects through the sales cycle from initial contact to deal closure.
- Proficient in using sales tools like **Sales Navigator, HubSpot, and MS Office** to manage sales activities and track progress.
- Knowledgeable in **modern sales enablement tools and automation platforms to streamline outreach** and reporting.
- Maintained high levels of professionalism and confidentiality while handling multiple client accounts simultaneously.
- Strong communication skills with the ability to multitask and prioritize tasks effectively in a dynamic team environment.

TECHNICAL SKILLS:

- I possess strong technical proficiency in using **CRM tools like Salesforce and Zoho CRM to manage client relationships and track sales performance**. For lead generation and outreach, I leverage platforms such as LinkedIn Sales Navigator, Apollo, and Lusha. I execute email campaigns using tools like Mailchimp and Lemlist, and track sales data and performance metrics using Excel and Google Analytics to support data-driven decision-making
