

Ankit Kumar

Data Analyst

+917667387337 ◇ ankitvaishnavisoni@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [HackerRank](#)

SUMMARY

- Entry-level Data Analyst with skills in Python, SQL, and Power BI, experienced in data cleaning, modeling, and visualization through academic and project work.
- Experienced in using Pandas, NumPy, Seaborn, Scikit-learn, and Streamlit for analytics and machine learning projects.
- Proficient in SQL, DAX, Advance Excel, and cloud tools like AWS (EC2, S3) with deployment via GitHub and Streamlit.

EDUCATION

B.Tech in Artificial Intelligence & Data Science , Truba Institute Of Engineering And Information Technology (GPA: 8.6)	Nov '21 — May '25 Bhopal
Intermediate in PCMB , S.S 108 M.R.J.D Inter College (GPA: 81%)	Mar '20 — Mar '21 Begusarai
Matriculation , Vikas Vidyalaya School (GPA: 74)	Mar '18 — Mar '19 Begusarai

CERTIFICATIONS

Data Analytics Essentials , Cisco	May '25
Career Essentials in Data Science , Microsoft and LinkedIn	Jun '24
Data Analysis with Python , Cognitive Class	Sep '22
Cloud Technologies , Infosys Springboard	May '25
SQL (Basic) , HackerRank	May '25

AWARDS

Certificate Of Academic Excellence

Truba Institute of Engineering and Information Technology

- Received Certificate of Academic Excellence twice for consistent high performance, demonstrating strong analytical skills and commitment to academic growth.

PROJECT

- Blinkit E-Commerce Dashboard Using Power BI, Data Analysis, DAX, Excel** [Link](#) Sep '24
- Designed an interactive Power BI dashboard to visualize key e-commerce KPIs such as sales trends, customer behavior, and inventory flow for Blinkit.
 - Delivered actionable insights on product performance, order efficiency, and customer satisfaction.
 - Enabled strategic planning and operational improvements through data-driven decision-making.
- Movie Recommendation System Using Python, NLP, Streamlit, Pickle, TMDB Dataset** [Link](#) Apr '25
- Developed a recommendation engine using metadata from TMDB's 5000+ movie dataset (genres, cast, crew, plot summaries).
 - Built NLP pipelines to clean and consolidate textual features; applied CountVectorizer and cosine similarity for scoring.
 - Deployed a responsive Streamlit app showing real-time top-5 movie suggestions with posters, ensuring fast load using Pickle-serialized models.

SKILLS

Programming Languages: Python, SQL

Data Analysis & Visualization: Power BI, MS Excel, Data Cleaning, Data Modeling, Data Visualization, Exploratory Data Analysis (EDA), DAX QUERY, Pivot Tables, Power Query, Statistics

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Scikit-learn (Machine Learning Library)

Database Management: MySQL Workbench, PostgreSQL

Cloud & Deployment: AWS (EC2, S3, EBS), GitHub, Pickle, Streamlit Deployment

Tools & Platforms: Jupyter Notebook, VS Code, PyCharm, Kaggle, GitHub

Soft Skills: Communication, Team Collaboration, Analytical Problem Solving

AI & Productivity Tools: ChatGPT, Google Gemini, Copilot

VOLUNTEERING

- Student Coordinator for the Placement Cell**, Truba Institute of Engineering and Information Technology Bhopal
May '24 — Apr '25
- Served as Placement Cell Coordinator, organizing drives, coordinating with companies, and supporting student preparation and communication for successful placements.
