EDUCATION

G.H.Raisoni College of Engineering and Management , Pune B.Tech in Computer Science and Engineering(AIML)	2021 - 2025 CGPA: 8.36/10
K.B.Rohamare Junior College of Arts,Commerce and Science , Kopergaon (Class XII)	2020 - 2021 Percentage: 93.67
Smt.N.A.Deshmukh Madhyamik Vidyalaya , Rui (Class X)	2018 - 2019 Percentage: 91.80

PROJECTS

Test Guardian using Computer Vision

- Engineered and deployed cutting-edge computer vision algorithms to safeguard online assessments, actively identifying potential security breaches and cheating attempts during live tests.
- Implemented AI-powered facial recognition and object detection models to monitor exam environments, detecting unauthorized devices and suspicious activities in real-time.
- Refined system performance by fine-tuning deep learning models for precise anomaly detection, ensuring fast and accurate analysis in high-pressure test scenarios.

Plant Leaf Disease Detection using Machine Learning

- Developed machine learning algorithms to classify plant leaf diseases, enabling early-stage detection with high precision, supporting proactive crop management strategies.
- Utilized image preprocessing and deep learning techniques to extract essential features from leaf images, improving the accuracy of disease identification models.
- Created a user-friendly platform that integrates the trained model, providing farmers and agricultural professionals with real-time disease diagnosis for informed decision-making.

Emotion Detection using Machine Learning

- Built machine learning models for emotion recognition by analyzing facial expressions, leveraging vast labeled datasets to improve detection accuracy.
- Employed convolutional neural networks (CNNs) to process and classify facial features, enhancing model robustness across various demographic groups.
- Developed a dynamic system for real-time emotion detection, enabling applications in areas like mental health support, customer experience enhancement, and interactive technology.

CERTIFICATIONS

- TCS ION** (Master Data Management for Beginners)
- Google Cloud** (Google Cloud Fundamentals)
- Power BI** (30-Days Power BI Micro Course)
- Cisco** (Data Analytics Essential)
- Udemy** (Machine Learning)
- NPTEL** (The Joy of Computing using Python)
- Smart India Hackathon** (Participated in SIH 2023 Hackathon)

TECHNICAL SKILLS

C , C++, Java, Python, HTML, CSS, JavaScript, SQL, Git, AWS, Google Cloud, Power BI, Tableau

RELEVANT COURSEWORK

Data Structures, Algorithm, Database Management System, Object Oriented Programming, MySQL.

POSITIONS OF RESPONSIBILITY

Coordinator of Student Association Club

Successfully organized and managed multiple events for the club, creating an engaging environment that encouraged students to participate actively and develop their skills

LANGUAGES

- English
- Hindi
- Marathi
