PROFESSIONAL SUMMARY

Data Analyst with 1 year of experience in data cleaning, analysis, and visualization using SQL, Python, Power BI, and Excel. Currently learning Snowflake to enhance cloud data warehousing skills and Prompt Engineering (chatgpt or other AI tool use).

EDUCATION

Bachelor's of Technology in Computer Science and Engineering

Dr.APJ Abdul Kalam Technical University

CGPA - 6.61

2021 - 2024

Diploma in Computer Science and Engineering

Km .Myawati Govt. Girls Polytechnic GBN

75.8 percent

2018 - 2021

SKILLS

Programming language : Python

Core Subject : DBMS , OOPS, Computer Network

Data Analyst : Data Manipulation , Data Cleaning , Data Visualization , PyLibraries , Statistics , Excel , SQL ,Power BI

Tools : VSCode , MySQL, Microsoft BI

EXPERIENCE

Data Analyst

Sept 2024 – May 2025

Masai

Remote

Technologies: EDA, Streamlit, Excel, SQL, Web Scraping, Python

- Cleaned and visualized 50+ datasets (e.g., Kaggle) using Python libraries including Pandas, NumPy, Matplotlib, and Seaborn.
- Performed exploratory data analysis (EDA) to extract 40-45+ key insights and actionable trends, improving business decision-making.
- Developed interactive dashboards using Streamlit, enhancing data accessibility and improving user insights by 50
- Conducted statistical analysis to identify correlations between datasets, optimizing operational efficiency.

Software Developer Intern

March 2024 – June 2024

Isofra Digital Pvt Ltd

Hybrid

Technologies: HTML, CSS, ODOO CRM, Figma, WordPress

- Designed and deployed responsive websites using HTML and CSS, improving mobile compatibility and user experience.
- Customized WordPress plugins and themes, resulting in a 15% increase in user engagement.
- Converted Figma prototypes into fully functional web pages, achieving 95% design accuracy.

PROJECTS

Bank Flow Reach Dashboard

- Developed an end-to-end business dashboard leveraging SQL, Power BI, and Excel to track banking flow and revenue metrics across multiple business units.
- Designed interactive visualizations and KPIs enabling stakeholders to monitor cash flow, account performance, and customer acquisition trends in real-time.
- Automated data cleaning and transformation processes to ensure data consistency, improving report accuracy by 40%.
- Enhanced decision-making by identifying key financial patterns and optimizing resource allocation strategies.

Indian Railway Operations Dashboard

- Built a comprehensive Power BI dashboard to visualize Indian Railway operations using real-time datasets imported via SQL database views.
- Designed interactive charts, maps, and KPIs to track train schedules, operational frequency, station performance, and journey durations.
- Modeled complex relational data and optimized SQL queries to support fast, efficient data refresh cycles.
- Delivered actionable insights to enhance operational monitoring and improve train service management.

EXTRA-CURRICULAR ACTIVITIES

- My TCS NQT score is 59.6 percent .
- I successfully completed the MICROSOFT AZURE (104) bootcamp and emerged as the winner. the bootcamp, this bootcamp conducted by UPES Dehradun University, I have spanned 45 days and provided a valuable learning experience.
