- Report Automation
- Communication & Client Coordination
- Problem Solving & Root Cause Analysis
- Time & Task Management

Technical Skills

- Power BI: Dashboard creation, data modeling, DAX formulas, filters/slicers
- SQL: Data retrieval, joins, filtering, basic queries
- MS Excel: Pivot Tables, VLOOKUP, Charts, Data Cleaning
- Familiar with data visualization techniques
- Python: Basic knowledge – data cleaning and analysis using Pandas

INTERNSHIP / ACADEMIC PROJECTS

Academic Project – “HR Analytics for Workforce Planning”

- Analyzed structured datasets and performed data verification for accuracy.
- Created basic data visualizations and summary reports in Excel.
- Delivered findings that improved understanding of turnover trends and process gaps.
- Emphasized skill development in handling HR data with real-world case scenarios.

ACADEMIC PROJECT

HR Analytics Dashboard (Power BI & Excel)

- Developed an interactive HR analytics dashboard using Power BI and Excel to analyze workforce trends.
- Cleaned and processed employee data in Excel, including performance metrics, attrition rates, and compensation details.
- Designed visualizations to track key HR metrics such as employee turnover, absenteeism, and promotion trends.
- Integrated Power BI with Excel to automate reporting and generate real-time insights for HR decision making.
- Identified patterns in employee attrition using data segmentation and provided actionable recommendations for retention strategies
