EDUCATION

Bachelor of Technology in Civil Engineering

Nov'21 - May'25

Indian Institute of Technology Roorkee (IIT Roorkee)

WORK EXPERIENCE

Analyst Intern

Nov'24 - Dec'24

Paragon IT Services

- Analyzed **1M+** records from 50+ IT projects using **SQL** queries and **Python (Pandas, NumPy)**, identifying process bottlenecks reducing project delays by **15%** and achieving **10%** cost savings.
- Built **Power BI** dashboards featuring real-time **KPI** monitoring and automated reporting capabilities, improving stakeholder decision-making speed by **30%**.
- Executed comprehensive data cleaning and validation, correcting **20%** of incomplete entries and removing 1.2K duplicates.

Summer Intern

May'24 - Jul'24

Goblu-EV

- Engineered machine learning models (**XGBoost** and **Random Forest**) with Dask-powered preprocessing on **1M+** historical data points, achieving **22%** enhanced prediction accuracy.
- Implemented **Dask** parallel processing for data cleaning, cutting preprocessing time by **45%**.
- Standardized **ARIMA** and **Prophet** time series models reducing RMSE by **0.12 (+18% correlation)**.

PROJECTS

Optimization of Aeration Efficiency in Montana Flume

Department of Civil Engineering, IIT Roorkee

- Designed testing frameworks for ML models (**ANN**, **Random Forest**, **SVM**) achieving **0.02 R-adjusted**, 40% better than baseline.
- Conducted **parametric and sensitivity analysis** on aeration processes, identifying **5** factors improving feature selection by **25%**.
- Enhanced predictive models for flume systems, improving correlation by 2.7% through **A/B testing** on 3 aeration techniques.

Understanding Consumer Segmentation for Targeted Marketing

Department of Management Studies, IIT Roorkee

- Architected **5+ Power BI dashboards** for sales analysis, reducing reporting time by **25%** with improved insights.
- Restructured **MySQL database** to **Star Schema**, decreasing query runtime by **40%** and refresh rates by **30%**.
- Deployed **20+ DAX formulas** for seasonal trends, optimizing CLV targeting accuracy by **18%**.

Evaluating Downscaling Methods of GRACE Data

Department of Civil Engineering, IIT Roorkee

- Established validation frameworks for groundwater storage products, improving **accuracy and reliability metrics by 15%**.
- Applied **multilinear regression** for GRACE data downscaling, improving correlation from **0.65 to 0.84**, reducing RMSE by 2%.
- Developed **statistical models** for climate data processing, enhancing **forecasting precision by 20%** through optimization.

SKILLS

- Programming Languages:** Python, SQL, C++
- Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- Database & Tools:** MySQL, Power BI, Excel (Advanced), Google Analytics, Jupyter Notebook
- Technical Skills:** Data Cleaning, Exploratory Data Analysis (EDA), Statistical Modeling, Feature Engineering, Machine Learning
- Business Acumen:** Stakeholder Management, Cross-functional Collaboration, Data Visualization, Strategic Analysis

AWARDS / ACHIEVEMENTS

- Gold Medal, Volleyball** - Inter Bhawan Sports Championship, IIT Roorkee 2024
- NTSE Stage-1 Qualifier** - Qualified from Bihar state for national-level scholarship exam 2018

POR & EXTRACURRICULAR

Head (Agriculture and Waste Management)

Feb'22 - May'24

Unnat Bharat Abhiyan, IIT Roorkee

- Led **100+** member team across **5** villages implementing socio-economic initiatives, leveraged environmental data analysis (soil health, waste management) boosting agricultural yield by **30%** and achieving **85%** adoption of sustainable practices.

CERTIFICATIONS

- Google Data Analytics Professional** - Coursera, **Machine Learning Crash Course** - Google, **Introduction to Databases and SQL Querying** - Udemy
