EXPERIENCE

INTERN

Edgeverve System

📅 Feb 2025 – Jul 2025 📍 Pune, India

- Involved in **MRT customization** and wrote various automation and utility scripts using **Python** and **Shell scripting**.
- Contributed to overall **Finacle product migration** and environment setup.
- Gained experience in **database handling**, **user data management**, and learned essential **banking fundamentals**.

TRAINEE

Infosys Finacle

📅 April 2024 – Feb 2025 📍 Pune, India

- Underwent training in **Java**, **Unix**, and backend technologies including **MySQL** and **Oracle**.
- Gained practical exposure to frontend technologies like **Angular** for building responsive interfaces.
- Learned backend testing tools including **JUnit** for unit testing and **JMeter** for performance testing.
- Successfully completed assessments for each module across the tech stack and frameworks.

ACHIEVEMENTS

- Solved **600+** problems across various coding platforms.
- Specialist on **Coding Ninjas**.
- Solved over **400+** coding questions on LeetCode.
- Achieved **5 stars** on HackerRank.
- Won **2nd prize** in college hackathon.

TECHNICAL SKILLS

- Programming Languages:** Java, JavaScript, HTML, CSS
- Frameworks:** Spring Boot, Spring, React.Js, Node JS, Express JS
- Databases:** SQL, MongoDB, DBMS, MySQL
- Other Skills:** Data Structures, Algorithms, Problem Solving
- Tools:** Git, GitHub, Postman, Netlify, VS Code, AWS

PROFILE LINKS

- [Leetcode Profile Link](#): 450+ problem solved
- [Coding Ninjas Profile Link](#): Specialist
- [GFG Profile Link](#): 150+ problem solved
- [Github Profile Link](#): 50+ start earned

EDUCATION

B.E. (CSE) - 8.69 CGPA

DR.D Y PATIL INSTITUTE OF TECHNOLOGY

📅 2021 – 2025 📍 Pimpri, Pune

Higher Secondary - 83.3%

Shree Neminath Jain HighSchool

📅 2021 📍 Nashik, Maharashtra

PROJECTS

DEV HELPER

- Spring Boot | React.js | MySQL | HTML | CSS**
- Developed a full-stack web application enabling real-time collaboration with integrated **video calling** functionality using **Stream.io**.
- Implemented **JWT-based authentication** for secure login and user session handling.
- Designed a clean and responsive UI using **React.js** and **CSS** for an enhanced user experience.

FINANCE TRACK

- Spring Boot | React.js | MongoDB | HTML | CSS**
- Built a personal finance management tool for tracking expenses and income through an intuitive **React.js** UI.
- Used **MongoDB** for secure data storage, ensuring user confidentiality and transaction integrity.
- Developed **RESTful APIs** and implemented business logic, authentication, and role-based access using **Spring Boot**.

KUBERNETES WEBSITE CONTRIBUTIONS

- Markdown | Hugo | Kubernetes Docs | Open Source**
- Contributed to the official [Kubernetes documentation](#) through multiple accepted pull requests.
- Enhanced visual clarity by updating **iframe color schemes** for improved accessibility.
- Added valuable learning material under the '**Helpful Resources**' section of the version releases page.
- Fixed broken and outdated references, such as updating the link for the **Admission Webhook Controller** in the **DNS** documentation.
