SUMMARY

Proactive and analytical MBA graduate from MNNIT Prayagraj with a dual specialization in IT and Finance. Combines a strong, academically grounded foundation in the **Software Development Life Cycle (SDLC)** and **data analytics** with a passion for solving complex business problems. Adept at translating stakeholder needs into detailed **documentation**, creating **process flows**, and acting as a communication broker between technical and business teams. Seeking to apply robust analytical and communication skills as a Business Analyst to contribute to project success.

INTERNSHIP EXPERIENCE

Finance Intern

Grasim Industries, The Aditya Birla Group | June 2024 - July 2024

- Acted as a key communication broker between business units and senior stakeholders to gather, analyze, and **document** business **requirements** for key operational decisions.
- Translated stakeholder needs into functional specifications for clear and concise Excel and Power BI-based dashboards, enhancing data visualization and reporting.
- Collaborated on ERP-based financial closure projects, contributing to **process documentation** and ensuring adherence to established procedures and project scope.
- Maintained accurate and up-to-date project **documentation** throughout the internship lifecycle, supporting profitability analysis and business requests
