PROFESSIONAL EXPERIENCE

Inka Insurance

January 2025 – Present

Web Development Intern

Remote

- Built fully functional dynamic web pages using modern front-end technologies, contributing to production-ready UI/UX
- Developed and integrated backend logic to support form handling, ticketing, and real-time interactions
- Utilized GitHub Actions for CI/CD to automate testing and deployment of code
- Collaborated using Jira board for sprint planning, ticket management, and Scrum-based project tracking
- Actively participated in code versioning and collaboration using Git and GitHub

Springmoney

August 2024 – February 2025

Project Intern

Pune, India

- Developed a Financial Market Trend and Cohort Analysis module using LLMs to improve client segmentation and derive actionable insights
- Designed a multi-agent architecture to coordinate data extraction, summarization, and insight generation across financial domains
- Built automated pipelines to gather data from financial news, tweets, and market reports
- Applied LLM-based summarization and entity extraction techniques to highlight market trends in gold, mutual funds, stocks, and real estate

Edwise International

December 2023 – January 2024

Data Analyst Intern

Pune, India

- Cleaned, processed, and analyzed raw Excel data to identify key business metrics
- Created Power BI dashboards to provide visual insights for strategic decisions
- Enabled informed business decisions through the analysis of cleaned data and visual representations

TECHNICAL SKILLS

Languages: Python, C++, SQL, HTML, CSS, JavaScript

Libraries/Frameworks: Pandas, NumPy, scikit-learn, TensorFlow (basics), Flask, Streamlit, React

Data Analytics & Tools: Excel, Power BI, Figma, MySQL Workbench

ML/NLP: Supervised ML, Time Series, LLM-based Summarization, TF-IDF, Cosine Similarity, Word2Vec

DevOps & Collaboration: Git, GitHub, Jira, GitHub Actions, Agile (Scrum)

Cloud & APIs: OpenAI APIs, TMDb API, REST APIs

Coursework: Data Structures, DBMS, OS, CN, ML, AI, OOP

EDUCATION

PVGCOET, Savitribai Phule Pune University

May 2025

Bachelor of Engineering in AI and Data Science

CGPA: 9 / 10

St. John High School and Jr. College

2021

Higher Secondary Education (XII)

Percentage: 95.6%

ACADEMIC PROJECTS

Automated Assignment Evaluation System | *Flask, Machine Learning, HTML/CSS/JS*

2024

- Developed a platform for instructors to upload assignment questions and evaluate student answers using a trained machine learning model
- Integrated Flask backend with a user-friendly frontend to streamline the grading workflow in a team setting

Stroke Prediction Model | *Python, Pandas, scikit-learn, Matplotlib*

2024

- Built a binary classification model to predict the likelihood of a stroke based on patient attributes like age, BMI, glucose levels, heart disease, and smoking status
- Performed data cleaning, exploratory data analysis (EDA), and preprocessing on a health dataset with 10 features and 1 binary target variable
- Implemented classification algorithms such as Logistic Regression and Random Forest, achieving 85% accuracy
- Visualized feature correlations and handled missing data (e.g., unknown smoking status) to improve model performance

Movie Recommender System | *Python, Scikit-learn, Streamlit, TMDb API*

2024

- Built a content-based movie recommendation engine using TF-IDF vectorization and cosine similarity
- Integrated TMDb API for fetching poster and metadata; deployed interactive UI using Streamlit

Madhav E-commerce Dashboard | *Power BI, Data Visualization, DAX*

2023

- Designed a dynamic business dashboard to visualize KPIs like revenue, profit trends, and customer behavior
- Enabled drill-down analysis across states and quarters, improving business insight delivery

LEADERSHIP AND ACTIVITIES

Public Relations Head, Entrepreneurship Development Cell, PVGCOET

2024

Curation Team, TEDx PVGCOET

2023

Mentor, Virtual Lab, PVGCOET

2023
