OVERVIEW

Motivated and detail-oriented professional in Artificial Intelligence and Data Science, eager to contribute to impactful projects. Skilled in problem-solving, with a strong technical foundation and a drive for continuous learning and innovation.

EDUCATION

B.Tech - Artificial Intelligence and Data Science

CGPA :7.36

DKTE'S Textile and Engineering Institute, Ichalkaranji Maharashtra - 2025

TECHNICAL SKILLS

Languages	Python, Java, C, C++, SQL,HTML,CSS,JavaScript
Developer Tools	VS Code, Canva, Jupyter Notebook, Power BI, MySQL, Excel,Selenium,Jira, Git, GitHub,Google Colab
Libraries / Frameworks	TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Matplotlib, OpenCV,Bootstrap
Concepts	Object-Oriented Programming (OOPs), DBMS, Cloud ComputingData Analytics, Data Visualization, Neural Networks, Web Development, Problem Solving

PROJECTS

AI-Based Online Exam Proctoring System : Role: Project Lead Developer

- Designed a proctoring tool using computer vision and audio monitoring to detect suspicious behavior in online exams.
- Implemented real-time face tracking, tab-switch detection, and sound event analysis.
- Enabled human review integration for flagged events to ensure fair assessment.
- Tech stack: Python, OpenCV, deep learning, Streamlit.

MarketMind – Real-Time Stock Price Prediction System: Role: Backend Developer

- Developed a prediction system using historical stock data, sentiment scores, and financial indicators.
- Created an interactive dashboard using Streamlit for real-time data visualization.
- Integrated Yahoo Finance API for fetching live data and visual trends.
- Tech stack: Python, scikit-learn, Streamlit, Pandas, Yahoo Finance API.

TrueLance – Fake News Detection System : Role: ML Model Developer

- Built a fake news classifier using natural language processing and supervised learning techniques.
- Applied text preprocessing, TF-IDF vectorization, and model tuning for accuracy.
- Evaluated models using precision, recall, and confusion matrix metrics.
- Tech stack: Python, scikit-learn, NLTK, TF-IDF.

INTERNSHIP

Data Analysis Intern – Cognifyz Technologies : Jan 2024 – Feb 2024 (Remote)

- Assisted in data cleaning, preprocessing, and visualization tasks.
- Contributed to creating analytical reports with actionable insights.
- Improved communication and coordination through regular reporting

AI-ML Virtual Intern – Eduskills (Google for Developers AICTE) : Jan 2024 – Mar 2024

(Remote)

- Completed a 10-week virtual internship focused on practical AI/ML concepts.
- Gained experience in model building, evaluation, and real-world applications.
- Strengthened data-driven problem-solving using Python and related tools.

CERTIFICATIONS

- Google Women in AI Summit – Participation Certificate
- Data Analytics Workshop – IIT Bombay
- Natural Language Processing – Oracle Academy

ACHIEVEMENTS

- District-level Kabaddi Player – Represented in official competitions showcasing leadership and athleticism.
- Designed posters and social media graphics for college events using Canva.
- Developed ML models in Kaggle’s “30 Days of ML” with hands-on training experience.

LANGUAGES

- HINDI – Native
- MARATHI – Native
- ENGLISH – Fluent
