

BRIEF SUMMARY

I have completed my diploma in Mechanical Engineering, where I gained valuable knowledge through both coursework and practical projects. Currently, I am pursuing my B.Tech in Mechanical Engineering to further enhance my skills. My academic journey includes working on projects such as vibration reduction in ambulances and innovative composite materials for brake pad performance. I plan to pursue an M.Tech in Mechanical Engineering to specialize further and contribute to advancements in the field.

KEY EXPERTISE

Catia Ansys Workbench Project Planning Supply Chain logistic Purchasing Costing production planning
Quality Control Quality Check SAP Project Management Skills

EDUCATION

MIT Academy of Engineering, Pune B.Tech. - Mechanical Engineering CGPA: 8.87 / 10	2022 - 2026
Goverment Polytechnic Awasari Kh Diploma Diploma - Mechanical Engineering - Mechanical Engineering MSBTE Percentage: 77.08 / 100	2023
Shree Chatrapati Shivaji Vidylaye Belwandi Bk, Ahmednagar 10 th MSBSHSE Percentage: 82 / 100	2020

INTERNSHIPS

Atharva Metals & Engineering Pvt. Ltd Manufacturing / Core Trainee Engineer Key Skills: Production Quality Control SAP Worked with mechanical, hydraulic, and pneumatic press machines. Gained hands-on understanding of machine operations and manufacturing systems. Assisted in production and quality control processe.	01 Jun, 2022 - 15 Jul, 2022
--	-----------------------------

PROJECTS

Designing New Brake Pad Materials Mentor: Dr. P.C.Jikar Team Size: 4 Key Skills: Material Selection Project Planning Project Management Skills Developing composite materials to enhance brake pad friction, wear resistance & heat dissipation. Going to conduct material selection, formulation, and performance testing.	29 Jul, 2024 - 01 Jun, 2026
Production Of Bio-diesel From Non-edible Seeds Mentor: Dr.S.Bhowmik Team Size: 4 Key Skills: Renewable Energy Produced biodiesel via oil extraction and transesterification process Studied properties of renewable fuel from non-edible sources	24 Aug, 2023 - 15 Jun, 2024
Vibration Reduction In Ambulance Stretcher Mentor: DR. S.S. MORE Team Size: 4 Key Skills: Manufacturing Material Selection Designed a stretcher or prototype with shock absorber-based vibration isolation Improved patient comfort during transport across rough road conditions	20 Jul, 2022 - 20 May, 2023

ASSESSMENTS / CERTIFICATIONS

Ansys Workbench Certification

Key Skills: Ansys Simulation fluent CAE

Covered simulation basics in structural, thermal, and fluid analysis

Business-to-business Marketing (B2B)

Aggregate: 57 / 100

Key Skills: B2B Marketing Strategies Business Strategy Business Analysis Business Planning Strategic Planning

Gained knowledge of B2B sales strategies, customer relationship management, key account handling, and industrial buyer behavior.

Computer Integrated Manufacturing

Aggregate: 76 / 100

Key Skills:

automation in manufacturing process planning group technology (gt) continuous improvement (kaizen)
customer-focused manufacturing

Gained knowledge of cad/cam integration, cnc operations, automation, robotics, and modern manufacturing systems.

PERSONAL INTERESTS / HOBBIES

- Gaming, Travelling to mountains, Bike Riding
