EDUCATION

- ❖ Computer Science Engineering| IPS Academy, Indore *CGPA: 8.96 | (Oct '21- '25)*

EXPERIENCE

- ❖ **Business Analyst | MCAL Global| Pune** *(Mar '25 – Present)*
 - Led the development of E-commerce and Healthcare domain web applications, managing the entire project lifecycle from requirements gathering to implementation.
 - Engaged stakeholders to gather and clarify requirements, conducted initial discussions, and provided timely demonstrations to ensure alignment and understanding.
 - Assisted the Product Owner in prioritizing requirements, defining project scope, estimating effort, and analyzing stakeholder needs.
 - Created key business documents, including Business Requirements Documents (BRD), Functional Requirements Documents (FRD), use cases, test cases.
 - Translated business requirements into detailed user stories and acceptance criteria, ensuring clarity and feasibility for development teams.
 - Conducted impact analysis for change requests, assessed feasibility, and provided recommendations to minimize risks and optimize project outcomes.
 - Analyzed business workflows to align with team objectives for current and future sprints.
 - Coordinated with cross-functional teams to develop solutions and meet project requirements.
 - Guided developers on new requirements and priorities to facilitate effective collaboration.
 - Collaborated with the Product Owner and Scrum Master to prioritize Product and Sprint backlogs using MOSCOW and Ranking techniques, ensuring timely delivery of project milestones.
 - Facilitated Agile ceremonies, including Sprint Planning and Refinement sessions, to ensure team coordination and clear communication.
 - Assisted in resolving blockers to maintain project momentum.
 - Created test cases as part of functional and user acceptance testing (UAT).
 - Worked with the Project Manager to ensure adherence to timelines and deliverables.
 - Developed training materials and conducted knowledge transfer sessions to ensure smooth adoption of new systems and processes by end users.

ACADEMIC PROJECTS

- ❖ **E commerce** *February 2025*
 - Led the development of a user-friendly e-Commerce website, enhancing the shopping experience with features like registration, product browsing, secure payment, and invoice downloads, prioritizing convenience, reliability, and efficiency.
 - Utilized burndown charts and estimated story points for sprint planning, closely monitoring project progress, identifying bottlenecks, and ensuring timely alignment with project deadlines, resulting in a 95% on-time delivery rate.
 - Worked closely with QA teams, customers, and development teams to address issues before implementation, effectively converting client requirements into actionable user stories and identifying test cases for UAT, leading to a 30% reduction in post-launch bugs.

- ❖ **Excel Data Analysis Project** *March 2025*
 - Analyzed Adventure Works' Q1 sales data (2022 vs. 2023) to assess trends and growth using formulas and PivotTables.
 - Cleaned and formatted data, integrating 5+ interactive slicers to enhance executive presentations and deliver clear, actionable insights.
- ❖ **Shop Nest Order | Power BI** *April 2025*
 - Performed an in-depth analysis of Shop Nest sales data using Power BI, including data modeling on records, visualization creation with 10+ dashboards, and DAX calculations for key performance metrics.
 - Developed 2 interactive dashboards that improved sales monitoring efficiency by 40%, highlighted top 10 best-selling products, and revealed a 25% sales increase in high-performing regions.

ACHIEVEMENTS

- ❖ Certified Business Analyst - IIBA
- ❖ Business Analysis Fundamentals *Feb 2025*
- ❖ Data for Business Analysts Using Microsoft Excel *Mar 2025*
- ❖ Requirements Gathering in Business Analysis *May 2025*
