OBJECTIVE

Aspiring Data Analyst with expertise in data visualization, wrangling, statistical analysis, and predictive modeling. Proficient in SQL, Python, Power BI, Tableau, and Excel, with hands-on experience in ETL, automation, and dashboarding. Strong problem-solving skills, eager to apply analytical expertise in a data-driven environment.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Jawaharla Nehru Engineering College MGM University, Aurangabad. CGPA : 7.12/10	2022 - 2025
Maharashtra State Board, Class XII Vivekanand College of Science, Aurangabad, 90.67%	2020 - 2021
Maharashtra State Board, Class X Little Flower English High School, Aurangabad, 76.60%	2018 - 2019

SKILLS AND INTERESTS

Data Analysis :	Proficient in Excel, SQL, Power BI, and Python for data analysis and reporting.
Data Visualization :	Experienced in creating dashboards and visual reports using Power BI.
Database Management :	Skilled in SQL, database design, and management.
Programming :	Knowledge of Python for data manipulation and analysis.
Soft Skills :	Problem Solving, Critical Thinking, Communication, Attention to Detail.

PROJECTS

Bank Loan Analysis Using SQL and Power BI.

- Used **SQL** to clean, join, and aggregate bank loan data for key metrics like interest rate and DTI.
- Built **Power BI** dashboards with slicers, filters, and drilldowns for **interactive data exploration**.
- Applied **DAX** and **data modeling** to calculate **KPIs** and enhance **dashboard** responsiveness .
- **Segmented** loans into Good vs. Bad and analyzed trends by term, purpose, region, and employment.

Customer Churn Analysis Using Python

- Performed **EDA** on telecom customer churn data using Python (**Pandas, Matplotlib, Seaborn**) to identify **churn patterns**.
- Data was **cleaned** and **transformed**, missing values were handled and categorical variables converted for better analysis.
- Found **26% churn rate**, with higher churn among senior citizens and short-tenure users using visual insights.

E-commerce Sales Analysis Using Excel

- Analyzed **28,000+** e-commerce records to study sales trends, customer demographics, and regional performance.
- Used **Pivot Tables, VLOOKUP**, and **charts** to identify top states, monthly sales trends, and channel performance.
- Built Excel dashboards to visualize **KPIs** like order status and customer segmentation for better decision-making.

CERTIFICATION

- Deloitte - Data Analytics Job Simulation.	June 2025
- TATA - GenAI Powered Data Analytics Job Simulation.	July 2025
