

AKASH
Data Analyst

Bangalore, India | +917019825514 | akashvatari1235@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with strong analytical and problem-solving skills. Proficient in Python, SQL, Power BI, and Excel, with hands-on experience gained through internships and academic projects. Skilled in data visualization, statistical analysis, and database management. Passionate about transforming raw data into actionable insights that support strategic decision-making.

TECHNICAL SKILLS

- Excel:** Pivot Tables, VLOOKUP, Power Query, Conditional Formatting.
- SQL:** MySQL, SQL Server.
- Programming:** Python (Pandas, NumPy), R (basic).
- Visualization Tools:** Power BI (Desktop, Service, Power Query, DAX), Tableau.

EXPERIENCE

AI Variant - Data Analytics Intern | ExcelR, Bengaluru

03/2025 – 06/2025

- Extracted, joined, and transformed data using **SQL**, reducing reporting time by **40%**.
- Built dynamic dashboards in **Power BI** and **Tableau** to monitor revenue, churn, and operations.
- Cleaned and analyzed data in **Excel** using Power Query, PivotTables, and advanced formulas.
- Collaborated with teams to convert business needs into scalable data models and reports.
- Documented ETL processes and workflows to support long-term maintainability.

PROJECTS

Vendor Performance Analysis

- Queried and integrated vendor data using **SQL** to calculate KPIs such as on-time delivery, defect rate, and invoice accuracy.
- Built **Power BI** dashboards and utilized **Excel** (Power Query, PivotTables) for anomaly detection and ad hoc reporting.
- Automated reporting workflows using **Python** (Pandas), reducing manual effort by **75%** and enhancing efficiency.
- Conducted spend analysis and vendor segmentation to identify cost-saving opportunities and underperforming suppliers.

Hospitality Analytics Dashboard

- Created **Power BI** dashboards to visualize hospitality KPIs like **Occupancy Rate**, **ADR**, and **RevPAR** for performance monitoring.
- Performed **ETL** from **Excel** and **SharePoint**, building clean data models for accurate reporting.
- Used advanced **DAX** and integrated slicers/custom visuals for interactive filtering and segmentation by region, season, and customer type.
- Automated reporting workflows to enable **real-time insights** and support faster, data-driven decision-making.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Dec 2021 - Jun 2025

Visvesvaraya Technological University,

Government Engineering College, Raichur, Karnataka
