EXPERIENCE

Data Scientist Intern: Rubixe AI Company

Sep 2023 – Jul 2024

- Engaged in different projects using analytics and machine learning, contributing to a 28% improvement in solution accuracy, and solving complex business challenges
- Cleaned and processed data records, developing Python predictive models, boosting forecast reliability by 30%, enhancing data quality for critical projects
- Developed Power BI dashboards for stakeholders, driving a 40% increase in data visualization clarity and supporting strategic planning and analysis
- Optimized SQL queries, leading to a 25% reduction in average data retrieval time, accelerating report generation and data access across teams

Data Scientist Intern: DevTown

Dec 2023 – Mar 2024

- Applied machine learning, statistical analysis, and data visualization techniques, ensuring 35% faster report generation and improved clarity in business insights
- Analyzed large datasets through exploratory data analysis, uncovering patterns and correlations contributing to 25% of business strategy insights
- Expanded knowledge by mastering new data science tools and machine learning libraries, applying skills to projects, and improving model outcomes

SKILLS

- | | | | |
|----------|--------------|------------------------|----------------------|
| • Python | • Power BI | • Probability | • Data Cleaning |
| • SQL | • Tableau | • Statistical Analysis | • Data Manipulation |
| • EDA | • Statistics | • Data Preprocessing | • Data Visualization |
| • GitHub | • MS Excel | • Python Libraries | • Data Visualization |

PROJECTS

Employee Performance Analysis

Sep 2024 – Nov 2024

- Designed a machine learning solution and predicted employee performance ratings using data like experience, gender, and department, achieving 78% prediction accuracy on test data
- Analyzed employee records at INX Future Inc., identifying key rating factors and enhancing model accuracy

Skin Disorder Classification

Jul 2024 – Aug 2024

- Created a machine learning algorithm and classified different skin disorders using image data, achieving an average precision rate of 95% across validation sets
- Conducted exploratory data analysis on datasets, identifying 8 key insights, and guiding adjustments in model design and business strategy

Insurance Cost Prediction Using Python | Machine Learning

May 2024 – Jun 2024

- Developed a machine learning model using Python, NumPy, and Pandas, predicting insurance costs, analyzing demographic and health data, and improving prediction consistency
- Executed thorough data preprocessing and statistical analysis on records, applying regression techniques, and increasing cost estimation reliability by 33%

EDUCATION

Dhole Patil College of Engineering

Feb 2020 – Aug 2023

Bachelor of Engineering in Electronics and Telecommunication Engineering, CGPA: 7.33

Ashok Polytechnique

Mar 2018 – Dec 2020

Diploma in Electronics & Telecommunication Engineering, 77%

CERTIFICATIONS

- | | |
|--|----------|
| • Data Scientist Course by DevTown | Dec 2024 |
| • International Association of Business Analytics Certification by IABAC | May 2024 |
| • National Association of Software and Service Companies from NASSCOM | May 2024 |
| • Certified Data Scientist by DataMites | Feb 2024 |
| • Certified data Analytics training Fortune cloud | Feb 2025 |
