Saket Shishu Ranjan Higher Secondary School (Vidisha) Percentage: 65%

Skills

Technical Skills: Python, SQL, DBMS

Tools: Jupyter Notebook, Google Colab, PyCharm, VS Code

Projects

Group Medicare - Group Insurance Platform

- Developed APIs and modules to streamline insurance management for companies.
- Enabled secure employee/family detail management for insurance purposes.

Hand Gesture Recognition

- Developed an AI/ML-based system for hand gesture recognition to detect hand movements and interpret their meaning.
- Tools Used: TensorFlow, Mediapipe, OpenCV.

Experience

Sept 2024 – Dec 2024 **Intern**, Zopper

- Assisted in API development with Python/DRF and bug fixes.
- Helped design and optimize database schemas and queries.
- Contributed to integrating third-party APIs and services.

Certifications

- "Python for Everybody" *Coursera*
An excellent course designed to provide a strong foundation in Python programming, covering everything from basic syntax to advanced concepts. This certification empowered me to work with data, automate tasks, and build practical Python applications.
- "Programming with Python" *Internshala*
A comprehensive program focused on solving real-world problems using Python. It enhanced my knowledge of algorithms, data structures, and object-oriented programming, helping me develop efficient and scalable applications.

Hobbies

- I love to play cricket, which not only helps me stay fit but also teaches me teamwork, discipline, and resilience.
- I have a keen interest in music, and I enjoy playing the guitar. Music helps me unwind and sparks creativity in both my personal and professional life.
