SUMMARY

Detail-oriented professional with expertise in SQL, Python, and data visualization. Experienced in data collection, cleaning, and analysis to derive actionable insights. Proficient in building ETL pipelines, performing exploratory data analysis, and developing dashboards to support decision-making. Passionate about leveraging data to drive business improvements and continuously expanding technical skills in a dynamic environment.

WORK EXPERIENCE

WEB-DATABASE DEVELOPMENT & DATA ANALYST INTERN

April 1, 2025 – June 30, 2025

Bhookie Restaurant Startup, Liverpool

- Contributed to designing Firestore schemas and planning analytics-ready tables for POS, website, and compliance data.
- Built dashboards to visualize sales, feedback trends, and compliance metrics using cleaned and validated data.
- Supported backend–frontend integration and proposed improvements based on analytical insights.

PROJECTS

Olist Ecommerce Data Analysis Project

- Data Preparation: Downloaded the eCommerce dataset, loaded it into Jupyter Notebook, and created dimensional tables.
- Data Cleaning & Analysis: Handled missing values, formatted data, and performed exploratory analysis to identify key trends.
- Visualization & Insights: Exported the cleaned dataset and built a Power BI dashboard to analyze sales trends and customer behavior.

Zomato Sales Analysis Visualization

- Created a Power BI dashboard to analyze Zomato sales data.
- Visualized sales trends, category preferences, and customer demographics.
- Provided insights for strategic planning and operational efficiency.

Ola Ride ETL Analysis

- Built an ETL pipeline in MySQL to analyze Ola ride data.
- Visualized ride cancellations, customer behavior, and driver performance in Power BI.
- Extracted key insights to improve business decisions.

TECHNICAL SKILLS

- | | |
|-------------------------|---------------------------|
| • Programming Language: | SQL, Excel, Python |
| • Visualization Tool : | Power BI |
| • Data Modeling: | Data visualization models |

EDUCATION

Master of Science in Data Science

July 2024

Currently pursuing MSc Data Science University of Mumbai | Kalina, Mumbai

Bachelor of Science in Computer Science

April 2023

Maharshi Dayanand College | Parel, Mumbai
