Summary

- Motivated and detail-oriented Computer Science graduate with a strong foundation in data analysis, software development, and problem-solving.
- Hands-on experience through academic and personal projects involving data visualization, web development, and AI-driven solutions.
- Proficient in tools and technologies such as Python, SQL, Excel, Power BI, and JavaScript, with a keen interest in transforming data into actionable insights.
- Strong analytical mindset with a passion for learning, continuous improvement, and building scalable, user-friendly solutions.
- Actively seeking a challenging entry-level role in Data Analysis to apply and grow technical and analytical skills in a dynamic and collaborative environment.

Skills

Programming Languages: **Python, SQL**

Data Analysis Tools: **Excel, Pandas, NumPy, Matplotlib,**

Data Visualization: **Tableau, Power BI, Matplotlib**

Databases: **MySQL, PostgreSQL, SQLite**

Developer Tools: **Jupyter Notebook, Google Colab, Git, VS Code**

Other Skills: **Data Cleaning, Data Wrangling, Basic Statistical Analysis, Exploratory Data Analysis (EDA)**

Experience

Full Stack Developer Intern

February 2022 – April 2022

PairBytes Software Pvt. Ltd.

Delhi, India

- Collaborated on developing full-stack web applications using the MERN Stack, contributing to faster feature delivery across 2 major projects.
- Designed and implemented reusable UI components and backend logic to enhance data-driven features, improving code reusability and maintainability.
- Partnered with senior developers in an Agile environment to deliver features on time, gaining experience in sprint planning and version control.
- Integrated RESTful APIs and resolved backend bugs to improve application reliability, while managing version control using Git for team collaboration.

Professional Projects

AI-Driven Gym Assistant | *Python, OpenCV, Machine Learning*

- Developed an AI-powered gym assistant to enhance workout tracking and provide real-time feedback on form using computer vision.
- Utilized Python and OpenCV to analyze body posture and guide users through personalized routines.

Typing Master Application | *Python, Tkinter*

- Designed and developed a desktop-based Typing Master application for improving typing speed and accuracy.
- Enabled performance tracking with real-time statistics and comprehensive report generation for users.

Interactive Data Dashboard | *Excel, Power BI*

- Created an interactive dashboard for dynamic data visualization and analytical insights.
- Enabled slicing and dicing of data across different dimensions, helping identify trends and patterns in real-time.

Education

Chandigarh University

MCA

MOHALI, PJ

May 2023 – May 2025

Bharati Vidyapeeth Institute Of Management and Entrepreneurship Development

BCA

Pune, MH

May 2020 – May 2023

K.R.BOSE SMARAK COLLEGE

11th - 12th

BIHAR

May 2016 – May 2018
