Computer Science graduate with a PG Diploma in Data Engineering from IIT Jodhpur. Experienced in Python, SQL, FastAPI, and Power BI through internship and projects. Looking for a role to apply my skills and grow in the software or data field.

Skills

Python : Data Types, Functions, Generators, Exception Handling, Flow Control Statements, OOPS, File Handling, lambda, function Map, Filter, Regular Expression, Decorator

Python Libraries : Pandas, Matplotlib

SQL: Good knowledge on RDBMS, DQL, DDL, TCL, DCL commands, joins, subquery , MongoDB

Data visualization tools: Power BI

Web Development: HTML, CSS , JavaScript

Work Experience

Equip | Data Analyst Intern

(8 months) September 2022 - March 2023

- Completed 40 hours of training in SQL and Power BI, mastering advanced database querying techniques, data manipulation functionalities, and data visualization.
- Developed 5 interactive dashboards and 10 reports in Power BI that provided actionable insights to senior management.
- Applied advanced SQL and Power BI techniques to solve complex business problems, resulting in a 20% improvement in data processing efficiency.

Project

E-Commerce Backend System | Python, FastAPI, MongoDB, Render

- Built a RESTful API to manage employee records using FastAPI and MySQL.
- Implemented endpoints for creating, listing (with search, filter, pagination) products, and placing/viewing user-specific orders.
- Integrated MongoDB Atlas using Pymongo with efficient schema design and query optimization.
- Deployed the application on Render with clean, modular, and testable code structure.

Education

Indian Institute of Technology (IIT), Jodhpur
PGD in Data Engineering

Dec 2023- Feb 2024

Sam Higginbottom University of Agriculture, Technology and Sciences
B.Tech in Computer Science and Engineering

June 2018 - Jun 2022
