EDUCATION

Pimpri Chinchwad Education Trust's NMIET, Pune <i>B.E in Computer Engineering</i>	Nov 2022 – June 2025 CGPA: 8.44
Government Polytechnic, Jalgaon <i>Diploma in Information Technology</i>	July 2019 - July 2022 Percentage: 87.44
S.D.Kude Highschool Dharangaon, Jalgaon <i>SSC (X)</i>	March 2019 Percentage: 86.40

TECHNICAL SKILLS

Languages: Java, Javascript, C, C++, SQL, HTML, CSS
Backend Frameworks and Tools: Spring (Boot), Hibernate, REST, JPA, Postman, J-Unit
Databases: PostgreSQL, MySQL
DevOps and Developer Tools: Git, Github, Docker, Linux
Problem-solving and Algorithm Development

PROJECTS

Crop Billing Application

- Developed a Java application using Skills Used: Java, MySQL, Swing GUI, J- tattoo library.
- Java application to assist farmers and dealers in billing transactions.
- The application enables dealers to purchase crops from farmers, generate bills, and maintain sales records. Additionally, it tracks the quantity of crop stock in the shop.

Parkinson's Disease Detection

- Built a desktop application using Python, Tkinter, and OpenCV with custom ML and CNN models.
- The Implemented Parkinson's detection using voice analysis and spiral image classification (via CNN).
- Integrated audio/image input, preprocessing, prediction, and result display in an easy-to-use GUI.

Agro World Application

- Skills Used: Fronted (XML), Backend (Java), Android-Studio
- Android application designed specifically for farmers, especially those new to farming.
- This application provides essential guidance on farming practices, making it easier for farmers to gain knowledge about the optimal use of fertilizers and the necessary precautions to take when diseases affect their crops.

EXPERIENCE

Industrial Training <i>Celebal Technologies</i>	May 2024 – July 2024 Remote
• Learned Java fundamentals, including OOP concepts, exception handling, collections, and multithreading. • Gained an overview of Spring Boot, covering dependency injection, REST APIs, and basic application development. • Worked on understanding enterprise application development and best coding practices	

CERTIFICATIONS AND ACHIEVEMENTS

Certifications:

Microsoft AI Classroom Series - Issuing Organization: Microsoft	Feb 2021
Certiprof Cyber Security Foundation - Issuing Organization: Certiprof	April 2021

Achievements:

- State Level Runner-up in Java competition.
