PROFESSIONAL SUMMARY

Data Engineer with experience in building scalable data pipelines, ETL solutions, and cloud-based analytical platforms using Python, SQL, and AWS services. Proven ability to deliver high-impact data products through collaboration, automation, and optimization. Passionate about leveraging data engineering to solve real-world supply chain and infrastructure challenges.

TECHNICAL SKILLS

- **Languages:** Python, R, SQL, Java, C++
- **Cloud DevOps:** AWS (EC2, S3, Lambda, DynamoDB, Redshift), Docker, Kubernetes, CI/CD
- **Big Data Tools:** Hadoop, Hive, Spark, MapReduce, Airflow
- **Visualization:** Tableau, Power BI, Seaborn, Matplotlib
- **Machine Learning:** Regression, Decision Trees, SVM, k-NN, PCA
- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB
- **Version Control:** Git, GitHub

EDUCATION

Chandigarh University, Punjab

Bachelor of Engineering in Computer Science

2022 – 2026

CGPA: 8.4/10

EXPERIENCE

TDA-Academy | Data Engineer Intern

June 2025 – Present

- Built scalable ETL pipelines using Python and SQL to consolidate student engagement data from LMS, app usage, and test platforms.
- Integrated and cleaned multi-source educational data (2M records), improving data reliability for dashboard reporting by 30%.
- Developed dashboards in Power BI to track course effectiveness, driving 15% improvement in user retention.
- Automated ingestion of real-time assessment scores using AWS Lambda and S3, enabling adaptive content delivery for students.

Coached.com | Data Analysis Trainee

Oct 2024 – Dec 2024

- Automated SQL-based data extraction, reducing process time by 10%.
- Designed data-driven dashboards, improving decision-making efficiency by 15%.
- Identified and fixed data inconsistencies, enhancing data reliability by 10%.

Resume Worded | Data Operations Intern

June 2024 – Oct 2024

- Managed CRM and operational databases with PostgreSQL and MongoDB, improving data accessibility for analytics teams.
- Conducted extensive data quality audits, raising CRM accuracy levels to 95%.

PROJECTS

Smart Inventory Optimization System

- Designed a cloud-native data warehouse with 5M+ records and automated ETL pipelines using AWS Lambda.
- Built Power BI dashboards that improved forecasting accuracy by 40% and reduced overstock by 20%.

Real-time Student Analytics Pipeline

- Built a real-time data pipeline tracking 2.5M+ monthly learning events using Lambda and FastAPI.
- Used Airflow for batch jobs and stored processed data in MongoDB/DynamoDB, boosting engagement by 25%.

Supply Chain Disruption Analyzer

- Scraped and ingested 1.2M+ records from e-commerce and logistics APIs to flag delays and inventory risks.
- Used Snowflake for transformation and QuickSight dashboards to cut procurement delays by 35%.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- IBM Data Science Professional Certificate
- Microsoft Certified: Azure Data Scientist Associate
- AWS Certified Machine Learning – Specialty
- Deep Learning Specialization – Andrew Ng (Coursera)
- Data Science and Machine Learning Bootcamp – Udemy
