SUMMARY

Passionate Software Developer with hands-on experience in Python, MERN stack development, Data Analysis, and Machine Learning projects. Known for quickly learning new technologies, strong teamwork, and delivering impactful academic and technical projects.

ACADEMIC PROJECTS

Data and Sentiment Analysis for Business Development

Python, Numpy, Pandas, Plotly, Streamlit [GitHub](#) Oct 24

- Performed EDA and data cleaning on MamaEarth’s 31,000-row dataset.
- Visualized insights with dynamic pie and bar charts.
- Built a Streamlit dashboard to classify customer reviews by sentiment.
- Integrated an LLM-based feedback feature for insights generation.

Safe and Efficient Traffic Obstacle Detection using Fine-Tuned Modified Faster R-CNN

PyCharm, ResNet-50, Faster R-CNN [GitHub](#) Aug 2024 - Dec 2024

- Developed a Traffic Obstacle Detection system using a Fine-Tuned Faster R-CNN with ResNet-50.
- Achieved 98.27% accuracy and 156 ms inference time.
- Applied fine-tuning and explored ResNet architectures.

CampusConnect: A Social Hub for Annual College Activities

Express, Node.js, React.js, Formik, Yup, Multer, JWT [GitHub](#) Feb 2024 - May 2024

- Built a MERN stack app with React Router, Formik, and Yup.
- Managed state with Redux Toolkit and Redux Persist.
- Implemented JWT authentication and Multer for file uploads.

EDUCATION

Vishwakarma Institute of Technology, Pune Dec 2021 - May 2025

B.Tech in Electronics and Telecommunication Engineering | 2021 - 2025

- CGPA: 8.26/10

Relevant Courses: Data Structures and Algorithms , Object-Oriented Programming , Database Management System, Machine Learning with Python , Operating System

TECHNICAL SKILLS

- Languages & Programming:** C, Java, JavaScript, Python, SQL
- Web Development:** HTML, CSS, JavaScript, React.js, Flask
- Databases:** MySQL, Database Management
- Data Handling & Analysis:** Numpy, Pandas, Power BI, OpenCV, Computer Vision
- Development Tools:** Docker, Rest API
- Computer Science Fundamentals:** Data Structures, Algorithms, Operating System, Object-Oriented Programming, Linux, Problem Solving

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

IEEE Paper Published Enhancing Visibility in Foggy Landmark Images
Springer Paper Published Safe and Efficient Traffic Obstacle Detection using Fine-Tuned Faster R-CNN
Best Paper Award IEEE International Conference

- Member, VIT Cricket Team (2024)
- Volunteer, Social Welfare and Development Committee, VIT Pune — Taught students about basic electronics and IoT during Utkarsh’23
